

TWO MEN FROM HERE ASSIGNED

Captain Perry Oneal in Command of Company F, 334th Infantry at Camp Taylor

FRANCIS COYNE IS IN 335TH

Is Second Lieutenant in Machine Gun Company—Other Assignments Not Yet Made

From a partial list of assignments of officers at Camp Taylor, near Louisville, Ky., where conscripted men from this county are being sent and where officers from this city commissioned at the Fort Harrison training camp were assigned, it is learned that Captain Perry Oneal has been given command of Company F, of the 334th Infantry Regiment.

Second Lieutenant Francis I. Coyne has been assigned to the machine gun company of the 335th Infantry Regiment. Donald Stackhouse of Indianapolis, formerly of this city, who was commissioned first lieutenant at Fort Harrison, has been assigned to the machine gun company also.

The list of officers assigned which has been published in dispatches from Camp Taylor, is not near complete, which accounts for the fact that assignments of Second Lieutenants Harry Petry, Walter Gartin, Posey Denning and Scott Buell and Captain Cary Carson have not been announced.

A dispatch from the camp says that more than one hundred officers who had been sent there, were transferred to Camp Shelby at Hattiesburg, Miss., where the national guard of Indiana, Kentucky and portions of Illinois is mobilized. The list of Indians transferred is given, but does not include the names of any of the Rush county officers.

The assignment of privates to the ranks of the two regiments, only skeletons of which have been formed, will require some time, but it is indicated that the men will be assigned to companies by counties. This means that it is practically certain that the men from Rush county in the first increment at least will be in the same company.

It is also intimated in dispatches that practically every man who went to Camp Taylor as a part of the first five per cent will receive promotion to be a non-commissioned officer. This reveals that the men who volunteered to go in the first increment were not unwise in doing so.

Dispatches further say that the federal physical examinations are

RUSHVILLE HAS CHANCE TO GET GLIMPSE OF AVIATORS

C. S. Lee Writes New and Longer Routes From Dayton to Indianapolis Are Planned

VISITS AVIATION SCHOOL

Rushville has an opportunity to get many a glimpse of the aviators training for service with the American army in France if the citizens will interest themselves in a movement to have this city made a way point along a route proposed for long distance trial flights between Dayton, O., and Indianapolis, according to a letter received by the Daily Republican from a former editor, Clifford S. Lee, now associate editor of The National Republican.

Mr. Lee, during a recent visit to Dayton inspected the Wilbur Wright Field where army aviators are in training and sends an interesting letter as to what he found there.

INDIGNITY IS INCREASING

English Are Certain Germans Deliberately Attack Hospitals

(By United Press.)

London, Sept. 8.—England's indignity over the bombing of hospitals by German airmen is increasing because of the certainty that the Germans are deliberately attacking the hospitals. In official circles it is pointed out that British airmen were nightly bombing German ammunition dumps, railway stations and strategic points inflicting military damage on the enemy to offset his barbaric attacks on protected property devoted to the mercy of war.

INSTRUCTED TO POST APPEALS AS USUAL

A. L. Gary Receives Word His Appearance Before District Board Doesn't Change Procedure

POSTED IN CLERK'S OFFICE

A. L. Gary local appeal agent for the government received word today to appeal the cases in the usual form and post notices as is required by law. Mr. Gary was under the impression that since he was to go before the board personally he could take the cases before the district board at that time.

While this will be done the government at the same time expects the proper notice to be given and Mr. Gary stated today that all cases where exemption was granted on the grounds of dependents would be appealed and he is making arrangements to post the list in the clerk's office as was one in the first cases appealed by him.

All of the cases are automatically appealed to the district board but at the same time Mr. Gary must give notice of the appeal. This was not thought necessary in the last batch of cases, but now the new order will have to be followed.

I. & C. GETS 3 CARS OF COAL

Threatened Shut Down is Averted For The Time Being

The Indianapolis and Cincinnati Traction company received three cars of coal today and the threatened shut down was averted for the time being. Three more cars are on the way and the company will make every effort to keep the coal coming regularly so as to avoid any curtailment of traffic. The company had enough coal to last through Sunday and the three cars received this morning arrived very timely.

He says under date of September 5:

"During a visit to the mammoth aviation camp at Fairfield, O., eight miles east of Dayton today, I was astonished at the aptness shown by the hundreds of young men in training for the flying corps, the thoroughness of organization and preparation—all perfected in from two to three months time by 11,000 workmen. I am indebted for the rare privilege of visiting the camp to Mr. A. C. Marshall, the venerable ex-president of The Dayton Board of Trade, who drove me in company with Judge R. L. Head of Brookville, out to the camp in the early morning hour, the start being made then for most of the flying is done before the sun and the wind are high.

"As we motored along, sharing the winding road with scores of big signal corps supply trucks, the first thing of interest pointed out to us

WILL LIKELY GO IN AUTOMOBILES

Rush County Odd Fellows Make Tentative Plans For Trip to Sovereign Grand Lodge.

TO GO SEPT. 18; RETURN 21ST

Biggest Thing on Program Will be Patriotic Parade Sept. 19—To Visit Camp Taylor.

Rush county Odd Fellows will likely go to the meeting of the Sovereign Grand Lodge at Louisville week after next in automobiles, according to tentative plans made at a meeting of members of Franklin lodge of this city and the Carthage lodge here last night.

A delegation of at least eight or ten machines is assured for the trip. The belief was expressed by Odd Fellows today that when it becomes generally known that the journey will be made overland, many more will want to join in the excursion.

Another meeting will be held at Franklin lodge hall next Wednesday night to make final arrangements and it is urgently requested that everyone who is interested, be present and learn the details for the trip.

According to present plans, the Rush county delegation will leave on Tuesday, September 18 and return on Friday, September 21. The biggest thing on the grand lodge meeting program will be the patriotic parade on Wednesday, September 19 when 25,000 Odd Fellows from all parts of the world are expected to participate.

One of the features of the meeting will be a trip to Camp Taylor, where a number of Rush county boys are in training for the army.

The Rush county delegation is going with the intention of letting the immense crowds which will attend the meeting know that "Rush county is on the map and is the best county in the best state in the best nation on earth," and one Odd Fellow put it today. It will be strictly a Rush county affair, with distinctive badges and decorations.

The Rush county section will be in the Indiana division and will be in charge of A. F. Newhouse. The Indiana division is third and there will be eleven divisions in the parade. The Rush county Odd Fellows are delighted with the prominent place which has been assigned to them.

The delegation from here will adopt a distinctive uniform for the parade and all will march.

CHARLES PHILLIPS ACQUITTED BY JURY

Posep Township Farmer is Freed on Charge of Assault on Mrs. Daniel Corya

JURY OUT THIRTY MINUTES

The jury in the Charles Phillips case was out thirty minutes in returning a verdict of not guilty of a charge of assault and battery with intent. Only four ballots were taken. The first ballot was 10 to 2 for acquittal, the second 11 to 1 and the third 10 to 2. On the fourth ballot an agreement was reached. Sam Young acted as foreman.

The case required two days to try. The alleged assault was on Mrs. Agnes Corya, wife of Daniel Corya, who were tenants on the Phillips farm at the time the charge was filed. The case went to the jury shortly before five o'clock Friday afternoon. The defendant was represented by Douglas Morris and John Titsworth and Prosecutor Stevens were assisted by Chauncey Duncan.

Hugh Trowbridge of North Arthur street is ill with typhoid fever.

U. S. ATTITUDE IS INTERPRETTED

Full Suffrage For a Germany Rid of Hohenzollernism is Main Issue of Peace Terms

RESTORATION IS IMPERATIVE

German People Must Eliminate Dynasty and Abandon Military Rule to Stop War

By ROBERT J. BENDER
(U. P. Staff Correspondent)
(Copyright by the U. P.)

Washington, Sept. 8.—Full suffrage for a "Germany rid of Hohenzollernism," right of disputed territories to speak for their own futures and restitution and restoration for these countries trodden under foot during the war, means peace.

Nothing short of this can terminate the war.

To clear up the confusion caused by the state department's recent announcement in apparent conflict to the president's reply to the pope, the United States obtained today a semi-official interpretation of the administration's actual attitude.

The allies can not talk peace with the Hohenzollerns, in the opinion of the administration officials. The German people should act promptly to eliminate this dynasty and abandon all military rule if the war is not to go on indefinitely.

When President Wilson said peace must rest upon the rights of the people, great and small, not upon government, he meant it literally and that, of course, applies directly to his utterance against dismemberment of empires.

It is declared that Alsace, Lorraine, Bosnia, Herzegovina — even Schleswig-Holstein wrested from Denmark by Germany in 1866 do not constitute integral parts of the body and sole of Germany and Austria.

The administration holds these should be given the right to express themselves on the question of whether or not they shall remain under the military heel of Germanic power, return to their mother countries—France, Denmark and Serbia—set up autonomous governments and rule themselves or attach themselves to other nations.

There must, of course, be autonomy for Poland and restitution and restoration for Belgium, neutrality for the Dardanelles and some changes in Turkey.

GERMAN AIRMEN KILL FOUR U. S. SOLDIERS

First American Casualty List of War Shows 3 First Lieutenants and 6 Privates Wounded.

ONE NURSE IS ALSO WOUNDED

(By United Press.)
At the Scene of the American Hospital Bombarded by the Germans, France, Sept. 8.—Four Americans were killed when German airmen deliberately bombarded American hospitals on the French coast.

The men killed were: First Lieutenant Fitzsimmons, Kansas City; Private L. G. Woods, Streator, Illinois; Rudolph Rubin, Jr., of New York, and Oscar LeTuge of Boston. In addition to these three first lieutenants were wounded as well as six privates and one nurse.

The above dispatch from the United Press correspondent is the first American casualty list of the war.

Mrs. W. F. Smith of Jackson township went to Indianapolis today for a visit with Cassius Smith. She was accompanied by Mrs. Frank Cross.

THIEVES ENTER 3 HOMES

Steal Milk, Eggs and Whatever Food There is in Refrigerators.

Ice box thieves were active again last night, three robberies being reported to the police. The homes entered were those of Donald Smith in North Harrison street, Will Inlow and Fon Riggs in North Perkins street. In each case the thief or thieves took milk, eggs and whatever food was in the refrigerators. The robberies were not discovered until this morning.

Thieves also stole a shirt belonging to Norm Norris off the line in the yard at his home last night.

ARGENTINA MAY PLUNGE INTO WAR

Subtle Plot in Which Sweden Violated Neutrality and Carried Messages to Berlin Disclosed

ARGENTINA NOT CONSIDERED

Washington, Sept. 8.—The subtle working of a plot in which Sweden violated neutrality and carried secret messages between Count Luxburg, German Charge de Affairs in Buenos Aires and Berlin, was revealed by the state department today. Luxburg insolently advised his home office that it need not heed Argentina's demands in the U-boat situation.

Most daring of all his recommendations was that Germany compel Argentine ships to turn back or to sink them without leaving any traces.

Sweden aided his machinations. The Swedish legation at Buenos Aires forwarded his messages to the Stockholm foreign office as their own official messages.

This was a distinct violation of neutrality which is likely to result in a delicate situation between the United States and Sweden, while Argentina is expected to plunge into war now that she sees Germany's schemes are bared.

FIVE BUILDINGS IN RUINS

Two Killed and 30 Injured in Explosion at Government Arsenal.

Philadelphia, Pa., Sept. 8.—Five buildings at the Frankfort government arsenal are in ruins, two workers are dead and 30, including several women, are injured following a series of five explosions early today. Col. Montgomery, commandant of the arsenal would make no statement regarding the cause of the explosions.

TOM J. GERAGHTY WRITES A SCENARIO FROM LATE NOVEL

Former Rushville Newspaper Man's Adaption of "A Man's Man" For Screen is Praised

WRITES FOR HENRY WALTHAL

Tom J. Geraghty, former editor of the Daily Republican, who went from here nine years ago to the New York Herald, has written a scenario from Peter J. Kyne's novel, "A Man's Man," in which J. Warren Kerrigan was to star. It will be released by the Triangle Distributing Corporation for the first time Sunday, September 23, simultaneously in New York and sixty cities throughout the United States.

Mr. Geraghty is writing an original picture play for Henry Walthal, a movie actor who is very popular here. Mr. and Mrs. Geraghty and children are living now at 1911 Pinehurst Road, Hollywood, California, which is in the heart of the moving picture producing industry.

"A Man's Man" was produced by the Parlatra Plays, Inc., which was organized by Carl Anderson and his associates and which has been in existence but about five months.

In that time it has formed two independent producing corporate units headed by J. Warren Kerrigan and Bessie Barriscale, established one of

the largest studios on the West Coast, directed by a notable producing staff, and now has practically ready to release four star feature productions.

This is considered "going some," even in the motion picture industry, where things progress very fast indeed.

Concerning Mr. Geraghty's adaption of "A Man's Man" for the screen, a story sent out in publicity matter by the Parlatra Plays says:

Many authors and dramatists re-

WILLARD AND HIS SHOW ARRIVE HERE

Jess Sleeps Late and Boys Linger Around His Private Car Are Disappointed

CHAMPION APPEARS IN SHOW

Circus Features Make Performance More Pretentious Than When Buffalo Bill Owned It

Interest in Jess Willard—Buffalo Bill wild west show here today just naturally gravitated around Jess because Rushville does not have world champion fighters "in its midst" every day in the year. Jess has a private car of his own and acted like a regular "boss," staying "in the hay" until about eleven o'clock. He said he didn't want to get up before breakfast.

The small boys who keep up on the sporting "dope" lingered around the private car for a few hours this morning with the vain hope they would get to see a real, live champion in flesh and blood without having to pay or sneak into the "big top." But Jess disappointed them by sleeping late.

The publicity agent assured a representative of the Daily Republican that Willard would appear in ring costume at both performances of the show at 2:30 and 8:30 and would meet all comers. He does a sparing stunt as a part of the show program.

Willard has declared in every town his show has appeared in this season that he is ready to meet Fred Fulton, a candidate for heavyweight honors, and he confirmed this statement today. Fulton recently whipped Carl Morris and put himself nearer Willard's class.

The show pulled in this morning from Richmond over the Pennsylvania between four and five o'clock and was all unloaded by eight. It will lay over in Louisville Sunday and show there Monday. The publicity representative said the show had been enjoying big crowds every place, but at Richmond yesterday the attendance was cut down by the rain. The wagons showed the effects of a heavy rain this morning.

The parade moved shortly after ten-thirty o'clock, the advertised time, and was seen by thousands of people who lined the streets. The size of the crowd here today, however, was cut down by gloomy weather.

The show under the management of Willard is a more pretentious affair than when the famous Buffalo Bill was in charge, because the circus features has been added to the wild west part of the show.

• THE R. L. DOLLINGS COMPANY INDIANAPOLIS, COLUMBUS, PHILADELPHIA, PITTSBURGH

You can't make good cream with a dirty cream separator

CREAMERYMEN AND BUYERS all over the country are demanding better cream, and if you sell cream it is to your advantage to deliver the best possible cream.

IF YOU MAKE BUTTER IT is equally important that your cream be first-class. Good butter can't be made from poor cream.

THE ONE FACTOR THAT most largely determines the quality of cream is the sani-tariness of the cream separator bowl in which it is separated.

THE EASE WITH WHICH the De Laval can be thoroughly washed and kept in a

sanitary condition is one reason why creamerymen prefer cream separated by the De Laval and it is likewise one of the reasons why butter made from De Laval cream has scored highest at the National Dairy Show for over twenty years.

THE CONSTRUCTION OF the De Laval is such that it can be completely taken apart for washing. There are no tubes, crevices, holes or corrugated surfaces such as are found in other machines, and which are very hard to clean.

THE DISCS ARE WASHED AS a single piece, and the whole machine can be thoroughly cleansed in five minutes.

Don't fail to see our display of Separators, Engines, Grinders, Etc., at the Rush County Fair

WHISKEY MAKING TO END AT 11 P. M.

But Whiskey Drinking Does Not End
Because There Are 232,404,870
Gallons Stored

IS EFFECTIVE FOR THE WAR

Prohibitionists Declare, However,
Manufacture of Whiskey Will
Never be Known Again

Washington, Sept. 8.—Whiskey making in the United States ends legally at 11 o'clock tonight.

But whiskey drinking does not end. There were 232,404,870 gallons of it stored in warehouses at the last report, not to mention supplies in saloons, wholesale liquor stores with licensed liquor dealers. This supply will last several years.

While the food control law under which John Barleycorn is knocked out, is effective only for the duration of the war, prohibitionists declare whiskey making never will be known again in this country. They are confident that with the experience gained from the present war experiment, nation-wide prohibition will soon be adopted by federal constitutional amendment.

John made a hard fight in Congress before the knockout was administered in Section 15 of the control law. Herbert Hoover counted John out in order to save about 40,000,000 bushels of foodstuffs to fight the war.

What will happen to whiskey distilleries is problematical. Some have already announced they will go out of business. Others plan to continue making alcohol for industrial purposes. Many may enter other lines—even making malted milk.

The law prohibits the making of distilled spirits for beverage purposes. Straight alcohol and denatured alcohol may continue to be manufactured. There are about 700 plants equipped for making alcohol in this country. Only about 600, however, actually have been making whiskey.

Hoover's order stops all processes in the production of whiskey at 11 p. m. "The use of foods, fruits and food materials or feeds may not even be initiated unless the entire process may be fully completed prior to 11 p. m." his order stated.

He did not give John Barleycorn a single moment's grace. While 30 days from date of approval of the law—August 10—would be tomorrow, Sunday, Hoover fixed the date of John's demise at 11 p. m. tonight because the internal revenue laws prevent the operation of distilleries between 11 Saturday night and the following Monday morning.

Two other "dry" provisions in the food bill have not yet been acted upon by Hoover. One gives the President the right to commandeer any or all distilled spirits if necessary for redistillation and use in munitions making or other military purposes. The other empowers the President to limit, regulate or prohibit the use of foodstuffs to make beer.

Amusements

The Princess offers "Broadway Jones" for the program again tonight. George M. Cohen is featured and the story is a typical American one. Those who saw the picture last night were highly pleased with the production. Jones played by Cohen is sour on his home town of Jonesville and goes to New York to do a little advertising. The stunts he does on Broadway gives him the necessary advertising. There is a good story interwoven. Monday Ethel Clayton will be seen in "Yankee Pluck."

The Gem will show Charles Chaplin in "The Floor Walker," for the first picture tonight. It is said to be a great comedy showing this famous comedian at his best. The second picture is a drama, "The Resurrection of Gold Bar," in which True Brodman is featured. The last is a comedy, "Jerry's Finishing Touch." Monday the five act feature "The Last of the Carnabys" will be shown.

Personal Points

—Miss Helen Hale of Carthage visited friends here yesterday.

—Charles Simpson of Manilla spent the day here with friends.

—Miss Anna Poundstone left for Bluffton, Ind., yesterday, where she will visit Mrs. Lida Ryker Stogdill.

—Mrs. Charles H. Brown left for Kokomo today, where she will visit Mr. and Mrs. Harrison Mills and family.

—Wayne Daubenspeck, Chester Wind and Clifford Stevens left today for an extended motor trip through the west.

—Mr. and Mrs. Emmett Fegley and daughter, have gone to Delaware and Toledo, Ohio, for a two weeks' visit with relatives.

—Miss Millett and Harry Edisor returned to their home in Peru today after visiting Mr. and Mrs. John McCoy for the past week.

—Neff Ashworth of Ft. Benjamin Harrison is spending the week-end with Mrs. Ashworth and other relatives and friends here.

—Mrs. Sarah Green returned to her home in Indianapolis today after visiting friends here and attending the funeral of Mrs. Armstrong.

—Mr. and Mrs. Ralph Champion and daughter Sara of Columbus Ind., will spend the week-end here with Mr. and Mrs. Wilbur Wilson.

—Mr. and Mrs. Amos Baxter and family will go to Decatur county tomorrow for a visit with Mrs. Baxter's sister, Mrs. J. W. Gayer, and family.

—Mr. and Mrs. J. Q. Thomas were called to Shelbyville this afternoon, on account of the death of Mrs. Thomas' sister, Mrs. Julia Hogue.

—Miss Gladys Watson has returned from Westerfield, Ind., where she visited her aunt, Mrs. Emma Higbee, and attended the state fair.

—Mr. and Mrs. J. W. Giltner of Pittsburgh, Penn., will come tomorrow for a visit with Mrs. Lowell M. Green. Mrs. Giltner is a sister of Mrs. Green.

—Mr. and Mrs. R. G. Budd and daughter, Miss Alleine, have returned from a visit in Indianapolis, and were accompanied home by Miss Katherine Skilling of Baltimore, Md.

—Mrs. Henry Gemmer and son Rudolph returned to their home in Huntington, Ind., today after a visit with Mr. and Mrs. H. G. Haydon and family and Mr. and Mrs. W. O. Feudner.

PRINCE OF WALES WINS ADMIRATION

Soldiers All Like Him Because He Is One of Them and Not Spoiled By Title.

TAKES UNNECESSARY RISKS
Privates Were the Last to Accept Him as a Real Soldier and This Made it Difficult.

(By United Press.)

London, Aug. 16, (By Mail)—If kings had to be elected, there is one private in the British army who would put his cross in the circle opposite the name of Edward the Eighth, the present Prince of Wales. Young Edward won his vote in the second battle of Loos.

The private is a runner attached to a Surrey regiment, who was coming back from an early morning attack with the news of how the fighting was going. He was still in the zone where shells were dropping with bothersome frequency and was hustling to get out of it. He saw approaching a young man picking his way leisurely among the shell-holes and hillocks.

"What the blankey-blank-blank are you doing out here?" he demanded of the stranger.

"None of your blankety-blank business," was the cheerful response as emphatically profane as his own greeting.

Coming nearer, the private saw he had been "cussing" an officer, a second lieutenant. Nearer still and he recognized the grinning countenance of the next King of England.

He sought to apologize, but the Prince insisted on regarding the matter as merely one of the humorous incidents of a very interesting war, suggesting, in so many words, that the private "forget it."

Stories about the Prince are not hard to find, among privates home on leave. These privates were the last to accept the Prince as a real soldier. He had to stand an even more grilling course of observation by the Tommies than other officers undergo—which any officer knows is sufficient.

When the Prince first went to France zealous generals, fearful of anything happening to the throne's heir while in their "zone" did endeavor to keep him away from the danger spots. Intensely sensitive of his prominence, the Prince began taking unnecessary risks when chance offered; the only way to stop him was to allow him to take his chances with his comrades in the ordinary risks of duty.

The result was that in the streets of Ypres, in innumerable "suicide corners" and "machinegun valleys," "dead-men's holes" and other unhealthy spots the Prince has won the complete approval of the men.

"Saw him bowling across 'Eleven O'clock Square' just before Fritz was due to open up," said one. Eleven O'clock Square is a well known place in a much shelled town where a German 5.9 stopped the public clock at the hour of 11. "An Engineer not knowin' 'im said, 'better 'op it, sonny, the band's just startin.' Crump, comes an eight-incher right into the square, but 'e only laughs and ducks into a doorway."

Or perhaps the story will be: "We was being posted something cruel by them big minnies (trench mortars) when a little feller crawled round the corner of our trench. He was as dirty as a sapper, but I recognized him. It was the Prince. He's huntin' for the Mayor, he says and when I points out the Mayor's dug-out he goes on as coolly as an A. S. C. driver at a ration dump."

Life in the field, officers say, has done wonders for the Prince. He is as hard as nails, and from a shy, hyper-sensitive youth oppressed by the cares of rank and knowledge of what was expected of his position, he has developed into a cheery, fearless young man, who has proved his right to mingle with the brave on equal terms.

Willard Everett, who is a member of the marine corps, stationed at Quantico, Va., who has been visiting his parents at Morristown, was here yesterday and visited Mr. and Mrs. John McCoy.

—Mr. and Mrs. Harry Sparks, Miss Mary Louise Miller and Miss Ruby Sparks left this afternoon for Chicago where they will spend a few days.

With The Churches

The services for the First Presbyterian church for Sunday are: Quiet Hour, 7:00 a. m.; Bible school, 9:30; divine worship, 10:30. The subject of the sermon will be "Add to Your Faith, Knowledge for the Vital Importance of our Schools;" evening worship at 7:30, at which time the pastor will preach on "The Greatest of the Beatitudes." Prayer meeting will be held Thursday evening at 7:30 o'clock.

First Baptist church, C. J. Bunnell, pastor, will hold services as follows: Sunday, 9:30 a. m.; public worship, 10:45 a. m. and 7:30 p. m.; subject for the morning sermon, "Abiding in Christ"; theme of evening sermon, "Christian Hopefulness." Midweek prayer service will be held on Thursday evening. The general public is invited to all of these services.

The Rev. John T. Aikin will preach both morning and evening at the United Presbyterian church Sunday. The subject of the morning sermon at 10:45 o'clock is "Paul's Estimate of Life," and in the evening the subject will be "Following Afar." Bible school at 9:30 a. m. Young peoples meeting at 6:30 p. m. and congregational prayer meeting on Thursday evening at 7:30 o'clock.

The regular services will be held at the Main Street Christian church Sunday, with Sunday school at 9:15. There will be preaching by the Rev. George R. Sweeney of Columbus both morning and evening.

Services at the Glenwood United Presbyterian church Sunday as usual. Bible school at 1:30 o'clock and preaching at 2:15 o'clock by the pastor, the Rev. John T. Aikin.

The Rev. J. A. Parker of this city will preach both morning and evening at the Fairview church Sunday.

AZALIA CROSWELL GRANTED DIVORCE

Is Given Decree From Francis Crosswell Upon Payment of Costs and \$3.50 a Week

MONEY TO SUPPORT HER CHILD

Mrs. Azalia Crosswell was granted a divorce from Francis Crosswell today in circuit court upon payment of the costs and given the sum of \$3.50 a week for the support of her child. Crosswell defaulted. Mrs. Crosswell alleged cruel and inhuman treatment and abandonment. Prosecutor Stevens appeared for the state and Young and Young represented the plaintiff.

The damage suit set for Monday, the case of Robert Bowman against the Indianapolis Traction and Terminal company, was dismissed today at the plaintiff's cost. The case was sent to this county on a change of venue from Hancock county. A special venire of twelve men had been called for jury service in this case but now they will not be needed.

Days Pickings

Ambrose and Martin Joyce are suffering with diphtheria at their home in West Second street.

A marriage license was issued today to John Mann of Shelby county and Mrs. Ada Hewitt of this county.

A marriage license was issued Friday to Thomas B. Havens, an employee in the Greensburg postoffice, and Fiss Helen E. McClain.

The right spindle on a machine driven by Lote Carter of the Bowen garage broke this morning as he turned from Perkins street west into Fifth street. The wheel came off but the car was not damaged aside from the broken spindle.

I. O. Harrison, former superintendent of schools, sold 83 acres of land in Anderson township today to John G. Hammond of Milroy for \$14,668.50. The sale is the largest for some time in Rush county and represents an outlay of \$176 an acre.

The Logical Shoe For Tender Feet

Some shoes actually take the joy out of life, because the feet ache and pain continually. Our shoes are logical for women who are on their feet much of the time.

Our shoes are made over lasts which are drafted to the lines of the foot, which equalizes the weight and protects sensitive joints against pressure.

You can easily forget your tired and aching feet and walk with buoyancy in a pair of our shoes.

**Chance For Farmers**

Most farmers have sold in the last few weeks the highest priced wheat they ever raised. Their yields were larger than in many years. They have corn crops coming on that are going to yield well and will bring prices they have never before been paid or even dreamed of.

Along next month some time the government will start a campaign for a second Liberty Loan. It may be to sell two billion or it may be to sell three billion dollars worth of Liberty Bonds. It remains for the farmers to help materially with this campaign. The first Liberty Loan came at a time when many farmers had all their surplus in circulation. The second Liberty Loan will be more opportune.

In this time of war there is a special duty laid upon every American citizen. Some have to bear arms and risk their lives and safety on dangerous seas and on the battle fronts in Europe. Others must care for those who are wounded and in performing that duty risk their lives almost equally with those who do the actual fighting. There are so many brave Americans performing such duties for their country that those of us who remain at home in safety and security must needs feel the obligation on us to do our part.

The farmers of America have an important duty, a vital national economic function imposed upon them. They must provide food for our armies, food for our families at home and food for our Allies abroad. The great and vital importance of this service has been recognized and the farmers of the country are directed to be given and will receive especial considerations in the matter of exemption from military service.

The service that the farmers of America are to perform is in the highest degree patriotic, but it is to be profitable, too. Never before has the American farmer had such a market for his products or such tremendous purchasers as he has now in the governments of the United States and our allies. And the funds with which these products are to be purchased are practically raised by the sale of Liberty Loan Bonds.

Buying a Liberty Loan Bond is not making a gift. It is the safest of investments, and considering also its rate of interest and non-taxable feature it is a remunerative investment of the first order. Some pronounce it the premier security of the world.

The farmers of America are given an easy way to serve their country, show their patriotism, and greatly benefit themselves. Money is needed to feed, equip, arm, and clothe our soldiers at the front. And money is needed, too, to buy the products of America's farms for our army and navy and the armies and navies of our allies. A great proportion of this money has been raised and is to be raised by the sale of Liberty Loan Bonds. The farmers in supporting the Liberty Loan serve his country, his people and himself, and he serves, too, the cause of liberty and civilization.

Working For Nothing

There are not many folks nowadays working for nothing, but in the ranks of the Red Cross hundreds of thousands, possibly millions, are giving a portion of their time every day—many of them all of their time—unselfishly and joyfully.

They all do it for their love of country and a desire to see the United States victorious in the war. They can find examples in the executive section of the Red Cross. Some salaries are paid, but many men who can command enormous salaries, are devoting their whole energy to the Red Cross.

One year ago, on a peace basis, with only about 200 chapters and a little over 200,000 members, with annual funds of only a few hundred thousand dollars, the Red Cross employed at its headquarters in Washington 75 paid officers and employes, of whom 29 received salaries of from \$2,000 to \$7,500.

At the present time, with the Red Cross on a war footing, with 2,600 Chapters to administer, 3,621,011 members and a war fund of \$100,000,000 pledged, Red Cross national headquarters employs 624 paid officers and employes, of whom 46 are paid salaries of \$2,000 a year or more.

In other words, since the war was declared, 559 paid officers and employes have been added to Red Cross headquarters' staff and of that number 17 receive salaries of from \$2,000 to \$6,000 a year. The highest salary added since war was declared is \$6,000. The highest paid official in the national organization received \$7,500, and he was on the staff on a peace basis.

Of those receiving less than \$2,000 a year, 49 now receive salaries of over a hundred dollars a month. There are 38 clerks being paid one hundred dollars, while clerks and messengers receiving less than \$100, number 491.

In addition to paid officers and employes in national headquarters, the number of full-time volunteers now contributing their services to the Red Cross is 77. Practically all the important administrative positions created since war was declared are filled by volunteers.

During the last month, although the number of Red Cross members has increased from 2,547,412 to 3,621,011, and the administrative work at national headquarters has increased substantially, the number of paid employes has decreased from 707 to 624. This is partly to be accounted for by the decentralization of the work among thirteen territorial divisions under a new plan of organization adopted by the War Council.

The Dutch scientist who built a room with vacuum walls to give him quiet, went to unnecessary trouble and expense. Most any business house that doesn't advertise could meet his need.

There is nothing strange in the claim of an European scientist that he can make diamonds from chips. Many a chip off the old block has turned out to be a diamond in the rough.

A New Jersey soldier, convicted of bigamy, has been sentenced to serve a term on the French front. We had no idea the New Jersey courts were so lenient.

President Wilson has decided that conscientious scruples need not disqualify a man from active service in road building. Right Shoulder, Shovels!

OIL MAN ON TRIAL

Lebanon, Ind., Sept. 8.—Harold Hughes, local representative of the Western Oil and Refining company, today went on trial here charged with selling uninspected oil. Charges were filed by Marion Caldwell, state supervisor of oil inspection.

Caldwell alleged that Hughes sold uninspected kerosene to John Thomas of Lebanon; that the oil was of low flash test; and that because of its low flashing point, Mrs. Thomas, wife of the purchaser, was burned to death.

Pay Telephone Toll

Will Italy's Big Drive Open the Road to Berlin?

Canadians forcing their way through the shell-shattered streets of Lens, French soldiers retaking Dead Man's Hill at Verdun, Italians swarming over Holy Mountain, and pushing along the well-defended slopes of the Bainsizza and Carso plateaus on their way to Trieste, are speaking a message plainly heard above the thunder of their guns. It is a reply to the Pope's peace plea antedating the polite notes of the Allied diplomats, so some editors believe.

That Italy now has the best position of any of the Allies, is the opinion of a United States army expert, whom the New York *World* quotes as saying that "during the present year the Allies are looking to Italy alone to carry out an offensive which may have a tremendous effect upon the outcome of the war. . . . If the present Italian offensive compels the Austrians to retire from the mountain regions completely and give the Italians an opportunity of holding them securely until next Spring it can readily be seen that these forces will be able to play havoc with the present Teuton lines on all quarters."

In THE LITERARY DIGEST for September 8th, there is an illuminating article which analyses from various view-points the operations on the Western Front and in Austria during the past few weeks. It is accompanied by a map showing the portion of *Italia irredenta* already reclaimed, and other illustrations.

Other topics in this number that will hold the interest of every reader are:

FIGHT FOR YOUR LIFE

Duty Demands Robust Health

Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by ill and ails. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day or without the intelligent use of effective weapons the palor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a pray to ill after all.

You will not find this class of persons in the hypoferrin ranks. No unhealthy, dull, draggy, droopy persons in that line. It is a Hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferrin stands for sound body and sound mind—it is the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferrin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferrin contains these mighty strength-producing agents, lecithin-and-iron peptonate, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the blood. In nine cases out of ten a run-down condition of a fellow person's complexion that "wears him out" is due to lack of lecithin-and-iron peptonate in the system.

Your mental and physical strength and endurance depends upon a lecithin-and-iron peptonate laden blood; steady, dependable nerves and a healthy stomach. With these you can meet life at any angle.

This wonder tonic, hypoferrin, which is as perfect as science can get to nature, meets every essential demand of the human organism. It is safe and sure and a boon to run-down, worn-out men and women. Hypoferrin means nature's own way of bringing color to the cheeks, strength to the body and keeping the vigor and paint way of effecting beauty is not needed by hypoferrin women and girls. Their blood, filled with nature's beauty stores, creates conditions that give firmness and grace to the body and the glow of health to the cheeks.

No need of going through life sickly and always feeling miserable in the age of man. You need just the right hypoferrin tonic. It puts into you the springy snap and vigor you ought to have and puts life into your body and mind that inspires the confidence that you confront the world on an equal footing with anyone.

Hypoferrin may be had from your druggist's or direct from us for \$1.00 per bottle. It is well worth the price. The Sentinel Remedies Co., Cincinnati, Ohio.

TO RESUME WORK ON A WAR BASIS

Colleges of State Will Offer Military Drill and Strict Economy Will be Made

SOME WILL BE COMPULSORY

Special Courses in Red Cross Work, First Aid and Nursing Will Also be Given

Indianapolis, Sept. 8.—Indiana's many colleges are about to resume work, on a war basis.

Thousands of male students will return to erstwhile peaceful surroundings to find themselves drafted into collegiate armies, forced to drill and study military tactics.

Strict economy will mark athletics in the majority of Indiana colleges this fall.

But how about football?

This rough and ready past-time of the colleges will be retained in almost every school where it held forth in peace times, but it will also feel the restricting touch of war.

Many college presidents told the United Press that the pinch of war prices plus external conditions, such as transportation, and the reduction in number of college men occasioned by the draft would curtail such sports as football—always popular in the Hoosier state.

But a strenuous effort will be made to retain the game. The number of intercollegiate games will be reduced in many instances, but intramural and inter-class games will be substituted. The feeling in general is that the strenuous game of football is essentially a war-time sport.

However, the outstanding feature of the poll of colleges was the reply that military training—in several cases compulsory—would be instituted. Those colleges which have had military training, are planning to broaden the courses.

At Indiana university, greater effort than ever before will be made to get every student interested in some form of physical education as a result of the war. Among the special courses that will be offered at I. U. the coming year are Military Science and Tactics. Two courses will be offered in the Geology department, where students may gain experience in Topographic and Map Reading. Courses will be offered Aeronautics and Military Aeroplanes.

Special courses will be offered in Red Cross work in First Aid, Nursing, Surgical Dressings, and the Making of Hospital garments. Special courses will also be offered in Civilian Relief and the Care of Dependent families.

Valparaiso university will offer military instruction and drill. An instructor in military science has been added to the faculty. One year of French has been added to the course.

"I believe all institutions of learning should offer the same courses as heretofore, with just as little change as possible," declared Henry Kinsey Brown, of Valparaiso. "For if there ever was a time when schools should be of real service to the government, it is now. The present war demands highly trained men and women and this demand will increase as the war continues. There never has been any doubt about the need for trained men and women in a period of reconstruction."

Notre Dame already had compulsory military training but the faculty is considering broadening the course. It has also had practically compulsory athletics, so the war is expected to have but little effect on the athletic program there.

Rose Polytec expects to broaden its military training course, instituted last year, to include some work in military topographic surveying, temporary engineering structures, but details have not been definitely determined.

St. Joseph's college expects little change in its work due to the war because the main object of the school is to train students for the priesthood.

Hanover may discontinue football but no decision has as yet been reached. However, for two years, Hanover has been considering the proposition of the substitution of intra-mural athletes for inter-collegiate. And any action if taken will not be due to the war.

BUTTERMILK LEMON IS LATEST DRINK

Barnard Discovers Wholesome Satisfying Beverage And Recommends It to Hoosiers

THREE LEMONS TO QUART

(By United Press.) Indianapolis, Sept. 8.—Hoosiers meet "buttermilk-lemonade."

We have it on the word of Dr. Harry E. Barnard, Indiana food controller, that its some drink. Want to try it.

Well here's how.

Whether you buy buttermilk from your milk man or prepare it in your home from sweet skim milk, you can greatly improve its palatability and as well introduce a delicious varient into your list of summer drinks by serving buttermilk lemonades.

In making this drink it is only necessary to add the juice of three lemons to one quart of buttermilk, mix thoroughly and sweeten to taste.

This beverage served cold satisfies with its acid flavor and nourishes at the same time. Buttermilk is a rich and wholesome food. A quart furnishes more than an ounce of protein, on of the rich body builders.

No cheaper wholesome and satisfying beverage can be found than good cold buttermilk and when served as a lemonade all its original excellent qualities are enhanced. Treat yourself to a buttermilk lemonade.

But a strenuous effort will be made to retain the game. The number of intercollegiate games will be reduced in many instances, but intramural and inter-class games will be substituted. The feeling in general is that the strenuous game of football is essentially a war-time sport.

However, the outstanding feature of the poll of colleges was the reply that military training—in several cases compulsory—would be instituted. Those colleges which have had military training, are planning to broaden the courses.

Insulation

Every part of your electrical system must be made leak proof by insulation.

Inside your battery is the most important insulation of all—that which separates the positive from the negative plates, for this prevents the battery from "short circuiting," and thus putting the whole system out of commission.

In the Still Better Willard, the insulation is made of durable acid-resisting rubber.

Thus Willard Threaded Rubber Insulation means a better insulated battery, a more durable, more efficient battery.

Ask us about the remarkable service achievement of Still Better Willards on 35,000 cars.

You Can Take Hills on High Without a Knock

If you will keep your car free from carbon. That knocking in your engine—the difficulty you have climbing hills—poor pick-up—lack of power—noisy motor—pre-ignition—in fact 80% of engine trouble is caused by carbon. Clean it out with

Johnson's Carbon Remover

and your engine will run like it did the first 500 miles, quietly and full of "pep"—and you will reduce your gasoline consumption from 12 to 25 per cent.

You Can Do It Yourself

For 35 cents—five minutes time and with no labor, you, yourself, can remove all carbon deposits. Simply pour an ounce of Johnson's Carbon Remover into each cylinder—allow it to remain there from two to twelve hours. Then start your car and drive ten or fifteen miles. You will be surprised at the wonderful improvement.

It is Guaranteed and Sold by

Johnson's Drug Store

Miss Elizabeth Pierson was the hostess last evening to a coterie of her girl friends, when she entertained with a slumber party at her home in West Third street. This morning Miss Pierson entertained the girls with an elegant three course breakfast, Miss Mary Louise Wyatt, who returned from Bay View, Mich., this morning being the guest of honor. A large bowl of yellow and white flowers centered the table and all the appointments of the breakfast were carried out in the same color scheme. The girls enjoying the affair were; The Misses Phyllis Casady, Helen Thomas, Jean Sparks, Marguerite Kelly, Reba Beale, Janet Dean, Marjory Clark, Mary Louise Wyatt, Leatha Higgins and Helen Gray.

Miss Leatha Higgins entertained a number of friends with a wiener roast last evening at her home in West First street. After supper indoor games made a lively diversion for the guests and then the girls went to the home of Miss Elizabeth Pierson, where they were entertained with a slumber party. The guests who enjoyed the wiener roast were: The Misses Frances Bowen, Elizabeth Pierson, Marguerite Kelly, Phyllis Dean, Helen Thomas, Helen Gray, Reba Beale, Jean Sparks, Marjory Clark, and Jean Gates, Conwell Smith, John K Tompkins, Ivan Alexander, Lotus Gartin, Frank Muire, George Poston, Harold Miller and his guest, Kenneth Lambert of Anderson, and Wayne Daubenspeck.

The home of Miss Alice Norris was beautifully decorated yesterday afternoon, when she entertained about twelve members of the Friday afternoon Embroidery club at her home in North Harrison street. Masses of delicate colored asters were used throughout the rooms and a pretty color scheme of lavender and white was carried out in the dainty refreshments which were served. The guests found ample amusement with their knitting and sewing during the afternoon.

Mrs. Mary Beele Reeves of Center township and Alonzo Newhouse of this city will be married at Danville, Ind., tomorrow by the Rev. Mr. Thomas. They will return here after the ceremony and will live on a farm in Center township. Mr. Newhouse has been associated with his son, Nalla Newhouse, in the garage business for the last few years.

About eighteen members of the Emanon club had their regular bi-monthly meeting with Mrs. Lowell M. Green yesterday afternoon at her home in East Sixth street. Dainty needlework and knitting was a feature of the afternoon and the hostess served a delectable luncheon at the close of the meeting.

Mr. and Mrs. Homer Freeland and Mr. and Mrs. Elmer Weidner of Decatur, Ill., Mrs. Will Gardner and Orman Newbould of Sullivan, Ill., were the dinner guests of Mrs. J. W. Casady and family yesterday at her home in North Morgan street.

Mr. and Mrs. Jacob Seull entertained with a well appointed six o'clock dinner last evening at their home in Milroy. Masses of asters embellished the center of the table. Covers were laid for nine among whom were Mr. and Mrs. O. P. Wamsley and daughter Catherine of this city and John Reddick of Louisville, Ky.

The Ladies Aid Society of the Webster's Carbon paper, L. C. Methodist church will meet with Hiner.

Stomach Troubles Since Childhood PERUNA Made Me Well

I Now Enjoy The Best of Health

Mr. Wm. W. Everly, 2225 North Hancock Street, Philadelphia, Pa., writes:

"I have been troubled with stomach disorders since childhood, but after taking six bottles of your Peruna, I now enjoy the best of health. I also had asthma in the head, which practically has disappeared, thanks to the Peruna Co. for their good work."

Those who object to liquid medicines can procure Peruna Tablets.

RED CROSS TO LOOK AFTER PRISONERS

Organization Formed in Switzerland to Care For Americans in German Prison Camps.

WILL SEND THEM PARCELS

(By United Press.)

Washington, Sept. 8.—Americans captured and held in German prison camps are to be looked after by the American Red Cross. Already a Prisoners' Relief Committee has been organized under supervision of Ellis L. Dresel of the American Legion at Berne, Switzerland.

The German policy of giving prisoners poor and scanty rations is to be counteracted by shipping food parcels to American prisoners. Each will contain a post card, to be signed as a receipt and returned, as a means of making sure the Americans get the aid intended for them.

These packages will contain ten pounds of meat, a quantity of butter, jam, coffee or tea, salt, rice and dried foods. The parcels will be sent three times in a fortnight.

Arrangements also have been made permitting sending clothes, money and letters from the families in this country of men taken prisoners.

CITY IS UNDER DISCIPLINE

Commission is Appointed Since Germany Menaces Petrograd

(By United Press.)

Washington, Sept. 8.—Petrograd is under vigorous discipline because of the German menace. A special commission has been appointed for the defense of the city. The Petrograd garrison has been placed under direct control of Gen. Koriloff, commander-in-chief of the Russian army, official cables to the Russian embassy announced today.

IMPORTER KILLS HIMSELF

T. W. Green of Tacoma, Wash. Commits Suicide in Indianapolis

(By United Press.)

Indianapolis, Sept. 8.—T. W. Green, 63, wealthy tea and coffee importer of Tacoma, Wash., today ended his life by shooting himself. Leaving the home of his son in the darkness of the early morning, Green walked to the street, placed the barrel of a new revolver in his mouth and died instantly. His health is believed to have prompted his act.

D. W. MCKEE RETIRES

D. W. McKee, a well known Connersville attorney, has announced his retirement from the firm of McKee, Wiles and Elliott. Mr. McKee will not retire from active practice but will not attempt to play an important part in the business in the future as he has in the past. Mr. McKee is widely known in Rushville and has practiced here almost as extensively as in Connersville. He has been in the legal profession for the past forty-two years. Mr. Wiles has formed a partnership with Clarence S. Roots.

WILBUR MAHIN ABOUT SAME.

Wilbur Mahin, rural mail carrier, who was hit by an I. & C. traction car Thursday morning at the Buell stop east of the city, was reported today to be in about the same condition as yesterday, which indicates that hopes are still held out for his ultimate recovery.

PROBE PACIFIST MEETING.

(By United Press.)

Indianapolis, Sept. 8.—Two investigations were under way by state authorities today of a meeting last night in Anderson of the Peoples Council of America for peace and democracy, which was denied the right of assembly in several mid-western states.

WILSONS ON CRUISE

(By United Press.)

New York, Sept. 8.—President and Mrs. Wilson slipped quietly into New York today and put aboard the presidential yacht Mayflower for a brief cruise. The president will keep in touch with Washington by wireless.

Webster's Carbon paper, L. C. Hiner.

FARMER DIES IN BUGGY.

Noblesville, Sept. 8.—Layton Mendenhall, 73 years old, died in his buggy yesterday while driving to his farm. He was stricken with apoplexy. Among the children who survive him are E. J. Mendenhall of Sheridan and C. L. Mendenhall of Hendricks county, both of whom served several terms in the Indiana legislature. He had lived in Hamilton county sixty years.

MILITARY COMPANY AT SCHOOL

Kokomo, Ind., Sept. 8.—The Kokomo high school will organize a military company, which is to be under the command of Prof. T. A. Hansom, for four years lieutenant of a company at Purdue University. Students entering the ranks will be given credits.

JESS WILLARD AND HIS BIG SHOW ARRIVES

(Continued From Page 1)

One of the last admonitions of Col. Wm. F. Cody, known for half a century throughout the civilized world as Buffalo Bill, was "Let my show go on!" And in making this request, he named as his executor Johnny Baker, the famous rifle shot, who had been regarded by Col. Cody as his foster son and closest friend. Johnny Baker, who is still with the big Wild West, is co-operating with Jess Willard in carrying out the wishes of the famous old scout and Indian fighter, and the show, is declared in every way to be worthy of the high standard set by its founder.

In a recent laudatory criticism of the big show, a New York newspaper remarked that "while the body of the great Cody rested on Lookout Mountain, overlooking the City of Denver, his spirit was in evidence in his great show," and this seems to be the universal verdict of those who have seen the exhibition this year.

For one thing, the performance offers, it is declared, an infinite variety of entertainment. The wild west and circus features are, it is said, so cleverly blended as to make a composite performance of constantly alternating light and shade. The cowboys, led by "Tex" McLoud, Tommy Kernan, Hank Durnell, Chester Byers and other noted range ropers and roughriders, present the sports of the cattle country with a daredevil recklessness that sends many a thrill through the audience. In this they are abetted by the no less daring cowgirls and a big company of roughriding Mexicans, old

plainsmen, Indians and Cossacks.

The historic days of the prairie and mountain country, when the pioneers were winning the West for the white man's civilization, is illustrated by the attack on the pioneers' camp by hostile Indians, the stagecoach hold-up, the pony express, the capture and punishment of a horse thief, and other stirring events.

The circus numbers present whirlwind acrobatics by the Mahmoud Berber Arabs, the Imperial Troupe of Japanese jugglers and gymnasts,

Emily Stickney, principal bareback rider, Mme. Marantette's high-jumping horses, Rhoda Royal's trained dogs, ponies and elephants and statue horses, Prince Charles,

the famous acrobatic and bicycleriding chimpanzee, and many other notable acts. A company of Uncle Sam's artillery puts a touch of stirring military life into the performance.

The looks speak for themselves just as bright as the day they came from the factory. The work is done under our expert supervision.

Our guarantee goes with Rebuilt Cadillacs. See these at once.

KAISER IS CELEBRATING

Wilhelm at Riga Reviewing Troops and Giving Decorations.

(By United Press.)

Amsterdam, Sept. 8.—Kaiser Wilhelm is at Riga celebrating the capture of the Russian Baltic seaport, according to dispatches received from Berlin today. The German emperor reviewed his victorious troops there and distributed many decorations. He also announced the appointment of Gen. Von Aulton as governor of the city.

MAY NOT DRIVE IN PETROGRAD

(By United Press.)

Amsterdam, Sept. 8.—The Germans "are unlikely to continue their offensive towards Petrograd this year," according to "an important personality" quoted today by the Berlin correspondent of the Politiken.

There was a snap and a zip to the movements of the men missing.

SAMMY GETS BY IF LINGO IS BAD TIME TO EXPECT THE FIRST FROST

Some Times They Have Hard Time Explaining But French Are Rapidly "Getting on"

GIVES MADAM FEW LESSONS

Quick And Resourceful Efficiency Has Overthrown Many Customs of Long Standing

By J. W. PEGLER
(U. P. Staff Correspondent.)

American Field Headquarters, France, (Aug. 17—By Mail).—"Hey, Madame! Nix on that, see voo play.

That's our own American soldier speaking French.

"Pas throwez dishwater in the front yards. C'est tres non-bon. Premiere thing you know there'll be tress flies buzzing around and then we'll all be mort a la typhoid."

A soldier from the states is standing in the door-way of the little white-washed French cottage where he makes his home during the training period, and Madame her dripping dish-pan held under one arm, is beginning to understand.

From his lingo she gathers that throwing dishwater into the doorway is one of the little things one doesn't do in America.

The soldier takes the dishpan from her, walks to the edge of the street and goes through the motions of pouring its contents into the gutter.

"Compray vous?" he asks, hopefully. "Compray. Pourez vous dishwater into el guttero." He absorbed some Spanish on the border.

"Ah Oui oui," says Madame, as the light of full comprehension spreads over her weatherbeaten face. "Veree good."

The quick and resourceful efficiency of the American soldier has overthrown many customs in these little French villages.

The Americans threw themselves into the valley towns all in a bunch. Details of soldiers cleared up the streets and since that day it has been everyone's duty to keep them clean.

Cleanliness came in the extreme degree—and came to stay. White-wash buckets appeared and the smudgy gray of old whitewash smiled anew in the brilliant sunlight. And sanitation came to the barnyard.

Altogether the villages were not much worse than some American farm villages. But they were not up to the army health standards until the soldiers made them so.

The French people have given the American boys a welcome such as no foreign troops ever before received in this country. The American soldier is saluted in grave military fashion by every French youngster along the road. And He salutes back.

The floppy-hatted "Chasseurs" (Chasers)—the French regiment that is helping to train the Americans—has learned the meaning of "put 'er second," and before long the French and Americans will be playing competitive ball.

On the other hand the American soldier has a speaking acquaintance with the waitress at the village hotel. When he drops in during the evening and asks for "trois hard-boiled oofs, avec pain et chocolah, toot-sweet," she comes back with a smiling "Sure Mike" and brings in the desired nourishment plenty quick.

BEGIN TO LOOK LIKE REAL SOLDIERS

After Two Weeks Training Student Officers Resemble Real Thing—Appetites Doubled

WEATHER HINDERS WORK

Fort Harrison, Sept. 8.—After two weeks of strenuous army life now to many of them—students attending the second officers' training camp here today began to look like real soldiers.

Men who came here from their offices were as tanned today as the man who came here from the outside life.

There was a snap and a zip to the movements of the men missing.

TIME TO EXPECT THE FIRST FROST

Gardners May Learn Probable Date of Killing Temperatures From Government Records

SUPPLIED BY WEATHER MAN

Frost Need Not be Expected Here Before October 15 If 1917 Runs True to Form

Washington, Sept. 8.—Truckers and gardeners planning for late crops should be aided in determining their "best bets" on the first frost by referring to this historical summary of frost occurrences in various sections, just issued by the United States Weather Bureau:

Killing frost has never occurred earlier than September 10 south of the extreme southwestern portion of South Dakota, extreme southern Minnesota, central Wisconsin, and the interior northern portion of lower Michigan. It has never occurred earlier than October 1 south of the extreme north portions of Oklahoma and Arkansas, southern Tennessee, and the mountain districts of North Carolina and Virginia.

A soldier from the states is standing in the door-way of the little white-washed French cottage where he makes his home during the training period, and Madame her dripping dish-pan held under one arm, is beginning to understand.

"Pas throwez dishwater in the front yards. C'est tres non-bon. Premiere thing you know there'll be tress flies buzzing around and then we'll all be mort a la typhoid."

From his lingo she gathers that throwing dishwater into the doorway is one of the little things one doesn't do in America.

The soldier takes the dishpan from her, walks to the edge of the street and goes through the motions of pouring its contents into the gutter.

"Compray vous?" he asks, hopefully. "Compray. Pourez vous dishwater into el guttero." He absorbed some Spanish on the border.

"Ah Oui oui," says Madame, as the light of full comprehension spreads over her weatherbeaten face.

The quick and resourceful efficiency of the American soldier has overthrown many customs in these little French villages.

The Americans threw themselves into the valley towns all in a bunch. Details of soldiers cleared up the streets and since that day it has been everyone's duty to keep them clean.

Cleanliness came in the extreme degree—and came to stay. White-wash buckets appeared and the smudgy gray of old whitewash smiled anew in the brilliant sunlight. And sanitation came to the barnyard.

Altogether the villages were not much worse than some American farm villages. But they were not up to the army health standards until the soldiers made them so.

The French people have given the American boys a welcome such as no foreign troops ever before received in this country. The American soldier is saluted in grave military fashion by every French youngster along the road. And He salutes back.

The floppy-hatted "Chasseurs" (Chasers)—the French regiment that is helping to train the Americans—has learned the meaning of "put 'er second," and before long the French and Americans will be playing competitive ball.

On the other hand the American soldier has a speaking acquaintance with the waitress at the village hotel. When he drops in during the evening and asks for "trois hard-boiled oofs, avec pain et chocolah, toot-sweet," she comes back with a smiling "Sure Mike" and brings in the desired nourishment plenty quick.

they arrived two weeks ago. Intensive training has left its mark.

Appetites have nearly doubled, according to the cooks, who frankly say they hope these student soldiers soon reach their limit in the eating line.

Actual life in the trenches, similar to those in Europe, is on the program within the next few days. The weather man has been begged for decent weather.

The men will soon be examined again physically.

Closer attention is now being paid the study of military manuals.

AUTO CATCHES FIRE

The

**Look and Feel
Clean, Sweet and
Fresh Every Day.**

Drink a glass of real hot water
before breakfast to wash
out poisons.

Life is not merely to live, but to
live well, eat well, digest well, work
well, sleep well, look well. What a
glorious condition to attain, and yet
how very easy it is if one will only
adopt the morning inside bath.

Folks who are accustomed to feel
dull and heavy when they arise, splitting
headache, stuffy from a cold, foul
tongue, nasty breath, acid stomach,
can, instead, feel as fresh as a daisy
by opening the sluices of the system
each morning and flushing out the
internal poisonous stagnation.

Everyone, whether ailing, sick or
well, should, each morning, before
breakfast, drink a glass of real hot
water with a teaspoonful of limestone
phosphate in it to wash from the
stomach, liver, kidneys and bowels the
previous day's indigestible waste,
sour bile and poisonous toxins; thus
cleaning, sweetening and purifying
the entire alimentary canal before
putting more food into the stomach.

The action of hot water and limestone
phosphate on an empty stomach is
wonderfully invigorating. It cleans
out all the sour fermentations, gases,
waste and acidity and gives one a
splendid appetite for breakfast. While
you are enjoying your breakfast the
water and phosphate is quietly ex-
tracting a large volume of water from
the blood and getting ready for a
thorough flushing of all the inside
organs.

The millions of people who are
bothered with constipation, bilious
spells, stomach trouble, rheumatism;
others who have sallow skins, blood
disorders and sickly complexions are
urged to get a quarter pound of lime-
stone phosphate from the drug store
which will cost very little, but is
sufficient to make anyone a pro-
nounced crank on the subject of
internal sanitation.

DEAF?
What is your Hearing
Worth to you?
Certainly a \$100.00 investment
and yet for less than half that
amount you can own a new model
Globe Ear-Phone
with 10 tone adjustments to meet
all your daily needs in home, busi-
ness, church, or social life.
Every phone sold with 10 year guar-
antees, which will make your investment
less than \$5.00 per year... isn't your hear-
ing worth the sum?
Call and see this new Ear-Phone.
Tell your friends about it!

**RUSHVILLE HAS CHANCE TO
GET GLIMPSE OF AVIATORS**

Continued From Page 1

was a little white building with a red roof, standing off in a broad, green field to the left. "That," said our host, "will go down in history for it is the building in which Orville and Wilbur Wright quartered their first bi-plane and this is the field in which they conducted their first experiments in flying. We people in Dayton thought they were crazy or merely wasting time but we have lived to see their work bear fruit and grow to such tremendous importance and proportion that it is, I believe, destined to be the one big factor in winning the war and saving the world for Democracy.

"The little hangar—pronounced "hanger"—holds ones interest long after it is passed as one approaches the big flying field, named in honor of Wilbur Wright, the one of the two brothers now deceased. The original hangar is to be preserved as worthy of a place in history.

"Shortly we turned a corner in the road and caught sight of the immense government plant, miles of white and red buildings—hangars, machine shops, barracks, interspersed here and there with tents and improvised stables of canvas—long open fields, drill grounds and a big flying field, covered entirely with clay and forty-four acres in extent, from which frequent clouds of dust arose as the bi-planes sailed from or alighted upon the ground. Four planes (they are called by that abbreviated term here) were in the air at various heights, the buzz of their motors being distinctly heard from below. Hundreds of teams and workmen were engaged in road making, grading and in erecting buildings, for the big plant is not yet complete. The entire flying field for instance, is yet to be floored with concrete—forty-four acres of cement floor upon which the airships are to start and finish their flights. As we approached the field, in search of headquarters where Lieut. H. M. Sanford, assistant to Captain Jackson, adjutant was to supply us with the passes, without which it is impossible to go anywhere, sentries from the Third Ohio Infantry, encamped at the field as a military guard, stopped us right and left, and we had to do considerable maneuvering to reach the adjutant's office by telephone. Once in touch with the adjutant's office we were brought to headquarters under guard and the necessary credentials were issued. Lieut. Sanford detailed Sergt.-Major "Heinie" S. Schmidt from the headquarters staff to conduct us on our tour.

"Sanford who is also censor at the camp, needed no assurance that we would not give out valuable military information but it was the sergeant-major's business to see that we didn't go where we were 'verbotten' and he made good. Schmidt proved to be a most interesting and obliging fellow but he knew where to draw the line. And he was ably assisted by the sentries who, under strict orders were always on the alert.

"It was interesting to be shown about by a veteran of the army signal corps—who said that he is of German descent, hailing from Dubuque, Ia., but having relatives in Germany. 'However' said he, 'I am American to the core and out with the rest of them to lick the Kaiser.'

"By the time we had reached the hangars nine big gray student planes were in sight above us and the air resounded with the thunderous buzzing of their motors as the planes soared or volplaned overhead, like so many giant beetles or bugs. Each carrying an aviator and an observer. 'Not much flying is being indulged in this morning,' said Schmidt. 'Usually there are from twenty to twenty-seven planes up but there will be more directly.' It wasn't long until we counted eighteen in the air above. The noise from the motors was deafening for they were flying low, except in a few instances. Other planes were being taken to and from the hangars. Others were testing their motors and others skimming the ground in an effort to 'get off their feet.'

"The government has 2,600 acres under lease for the plant and a total of fifteen hundred men comprise the eight aero squadrons in training. Four hundred of these men are undergoing training as aviators. The remainder are the observers, mechanicians and helpers. When at full war-strength a squad-

**"GHOST WILL WALK"
AT CAMP SHELBY**

**Men of Company B, Along With
Other Guardsmen at Hattiesburg, to be Paid Tuesday**

\$70,000 WILL BE REQUIRED

Hattiesburg, Miss., Sept. 8.—The "ghost" will probably "walk" Tuesday at Camp Shelby greatly to the delight of many of the enlisted men who are running short of money. This will be the first pay day at the camp and the first pay day for many of the troops here. It is estimated that \$70,000 will be required to pay the men and arrangements have been made to bring the money from New Orleans. It is estimated that future disbursements at the camp will aggregate \$1,250,000 a month.

The troops at Camp Shelby will be protected against usurers, Major William S. Bowen, camp adjutant said. Shylocks are said to have charged soldiers at another camp as high as 50 per cent a month for loans. Should troops here borrow money at usurious rates of interest they will be advised by officers to resist payment of principal and interest too.

"TUFFY" O'BRIEN IS DEAD

**Expires at County Poor Farm
Where he Was Inmate 17 Years**

Patriot (Tuffy) O'Brien, age seventy-eight years, died at the county poor farm last night about eight-thirty o'clock. He had been an inmate at the county home seventeen years. Mr. O'Brien came here from Newport, Kentucky where his relatives lived. He was the son of Michael and Mary O'Brien and was born in Ireland. He has no immediate relatives so far as the superintendent of the county asylum has ever been able to learn except a sister whose whereabouts are not known. The funeral will be held at the Catholic church Sunday afternoon at 1:30 o'clock and burial will take place in Cavalry cemetery. The remains may be viewed at Caldwell's undertaking parlors.

KICK ON NOTARY FEES

Indianapolis, Ind., Sept. 8.—Men called before the draft boards for examination here think it strange they have to pay the notary fee in filing exemption papers. They feel Uncle Sam should foot the bill.

Prices for administering oaths to affidavits here range from 25 cents to \$1—depending somewhat on the location of the notaries' office.

parent wind shield.

"There are two French officers who are acting as instructors here—one of whom, Lieut. V. de Mandrot, a dapper little fellow with a boyish face and a mustache passed us, looking very neat in the blue-gray uniform of the French army.

"After we had been taken through the machine shops, had inspected three knocked down machines, from which sentries finally drove us away; after we had been shown through the barracks, officers quarters, hospital and other places of interest, we were escorted hurriedly to headquarters, where we took refuge from a sudden storm of wind and rain. By the time the storm broke each of the twelve aviators that were still in the air were safely down, except one, who could not be seen for the dust and clouds.

"Some anxiety was expressed concerning him but the opinion was general that he had gone up above the clouds and was safe and serene in the sunshine and calm which the flyers say are always to be found above a storm.

"The aviation camp here is the largest in the country. It is to become a permanent plant. I am not at liberty to write any of the important information given us but it is sufficient to say that the American people are going to be hearing of the exploits of a large number of the men at this camp sooner than is generally expected. We will be reading of them in the casualty lists—reading in admiration of their daring, of which there certainly is a plenty here."

THE PEOPLES LOAN & TRUST CO.
RUSHVILLE, INDIANA.

"The Home For Savings"

Which is Cheapest?

IT'S mighty fine to see the interest so many farmers around here are taking in a better grade of engines. The Mogul kerosene engines we have sold up to date have all made such good records for steadiness and economy, and have proved themselves such good money makers for their owners, that we've been getting a lot of orders and inquiries lately.

* Price may sell some thin market, but price alone is a poor argument when compared with the records for low cost of operation that Mogul kerosene engines are making in this neighborhood. If you are in the market for an engine, anywhere from 1 to 50-H. P. in size, and want some interesting facts about power at low cost, drop in and see us the next time you are in town.

TWO MEN FROM HERE ASSIGNED

INDIGNITY IS INCREASING

English Are Certain Germans Deliberately Attack Hospitals

(By United Press.)

London, Sept. 8.—England's indignity over the bombing of hospitals by German airmen is increasing because of the certainty that the Germans are deliberately attacking the hospitals. In official circles it is pointed out that British airmen were nightly bombing German ammunition dumps, railway stations and strategic points inflicting military damage on the enemy to offset his barbaric attacks on protected property devoted to the mercy of war.

WILL LIKELY GO IN AUTOMOBILES

Rush County Odd Fellows Make Tentative Plans For Trip to Sovereign Grand Lodge.

TO GO SEPT. 18; RETURN 21ST

BIGGEST THING ON PROGRAM WILL BE PATRIOTIC PARADE SEPT. 19—
To Visit Camp Taylor.

Rush county Odd Fellows will likely go to the meeting of the Sovereign Grand Lodge at Louisville week after next in automobiles, according to tentative plans made at a meeting of members of Franklin lodge of this city and the Carthage lodge here last night.

A delegation of at least eight or ten machines is assured for the trip. The belief was expressed by Odd Fellows today that when it becomes generally known that the journey will be made overland, many more will want to join in the excursion.

Another meeting will be held at Franklin lodge hall next Wednesday night to make final arrangements and it is urgently requested that everyone who is interested, be present and learn the details for the trip.

According to present plans, the Rush county delegation will leave on Tuesday, September 18 and return on Friday, September 21. The biggest thing on the grand lodge meeting program will be the patriotic parade on Wednesday, September 19 when 25,000 Odd Fellows from all parts of the world are expected to participate.

One of the features of the meeting will be a trip to Camp Taylor, where a number of Rush county boys are in training for the army.

It is declared that Alsace, Lorraine, Bosnia, Herzegovina — even Schleswig-Holstein wrested from Denmark by Germany in 1866 do not constitute integral parts of the body and sole of Germany and Austria.

The administration holds these should be given the right to express themselves on the question of whether or not they shall remain under the military heel of Germanic power, return to their mother countries — France, Denmark and Serbia — set up autonomous governments and rule themselves or attach themselves to other nations.

The Rush county section will be in the Indiana division and will be in charge of A. T. Newhouse. The Indiana division is third and there will be eleven divisions in the parade. The Rush county Odd Fellows are delighted with the prominent place which has been assigned to them. The delegation from here will adopt a distinctive uniform for the parade and all will march.

CHARLES PHILLIPS ACQUITTED BY JURY

Posey Township Farmer Is Freed on Charge of Assault on Mrs. Daniel Corya

JURY OUT THIRTY MINUTES

He says under date of September 5: "During a visit to the mammoth aviation camp at Fairfield, O., eight miles east of Dayton today, I was astonished at the aptness shown by the hundreds of young men in training for the flying corps, the thoroughness of organization and preparation—all perfected in from two to three months time by 11,000 workmen. I am indebted for the rare privilege of visiting the camp to Mr. A. C. Marshall, the venerable ex-president of The Dayton Board of Trade, who drove me in company with Judge R. L. "As we motored along, sharing the winding road with scores of big signal corps supply trucks, the first thing of interest pointed out to us

U. S. ATTITUDE IS INTERPRETED

FULL SUFFRAGE FOR A GERMANY RID OF HOHENZOLLERNISM IS MAIN ISSUE OF PEACE TERMS

RESTORATION IS IMPERATIVE

GERMAN PEOPLE MUST ELIMINATE DYNASTY AND ABANDON MILITARY RULE TO STOP WAR

By ROBERT J. BENDER
(U. P. Staff Correspondent)

(Copyright by the U. P.)

Washington, Sept. 8.—Full suffrage for a "Germany rid of Hohenzollernism," right of disputed territories to speak for their own futures and restitution and restoration for these countries trodden under foot during the war, means peace.

Nothing short of this can terminate the war.

To clear up the confusion caused by the state department's recent announcement in apparent conflict to the president's reply to the pope, the United States obtained today a semi-official interpretation of the administration's actual attitude.

The allies can not talk peace with the Hohenzollerns, in the opinion of the administration officials. The German people should act promptly to eliminate this dynasty and abandon all military rule if the war is not to go on indefinitely.

When President Wilson said peace must rest upon the rights of the people, great and small, not upon government, he meant it literally and that, of course, applies directly to his utterance against dismemberment of empires.

It is declared that Alsace, Lorraine, Bosnia, Herzegovina — even Schleswig-Holstein wrested from Denmark by Germany in 1866 do not constitute integral parts of the body and sole of Germany and Austria.

The administration holds these should be given the right to express themselves on the question of whether or not they shall remain under the military heel of Germanic power, return to their mother countries — France, Denmark and Serbia — set up autonomous governments and rule themselves or attach themselves to other nations.

There must, of course, be autonomy for Poland and restitution and restoration for Belgium, neutrality for the Dardanelles and some changes in Turkey.

GERMAN AIRMEN KILL FOUR U. S. SOLDIERS

First American Casualty List of War Shows 3 First Lieutenants and 6 Privates Wounded.

ONE NURSE IS ALSO WOUNDED

(By United Press.) At the Scene of the American Hospital Bombarded by the Germans, France, Sept. 8.—Four Americans were killed when German airmen deliberately bombarded American hospitals on the French coast.

The men killed were: First Lieutenant Fitzsimmons, Kansas City; Private L. G. Woods, Streator, Illinois; Rudolph Rubino, Jr., of New York, and Oscar LeTuge of Boston. In addition to these three first lieutenants were wounded as well as six privates and one nurse.

The above dispatch from the United Press correspondent is the first American casualty list of the war.

Mrs. W. F. Smith of Jackson township went to Indianapolis today for a visit with Cassius Smith. She was accompanied by Mrs. Frank Cross.

THIEVES ENTER 3 HOMES

Steal Milk, Eggs and Whatever Food There is in Refrigerators.

Ice box thieves were active again last night, three robberies being reported to the police. The homes entered were those of Donald Smith in North Harrison street, Will Inlow and Fon Riggs in North Perkins street. In each case the thief or thieves took milk, eggs and whatever food was in the refrigerators. The robberies were not discovered until this morning.

Thieves also stole a shirt belonging to Norm Norris off the line in the yard at his home last night.

ARGENTINA MAY PLUNGE INTO WAR

Subtle Plot in Which Sweden Violated Neutrality and Carried Messages to Berlin Disclosed

ARGENTINA NOT CONSIDERED

Washington, Sept. 8.—The subtle working of a plot in which Sweden violated neutrality and carried secret messages between Count Luxburg, German Charge de Affairs in Buenos Aires and Berlin, was revealed by the state department today.

Luxburg insolently advised his home office that it need not heed Argentina's demands in the U-boat situation.

Most daring of all his recommendations was that Germany compel Argentine ships to turn back or to sink them without leaving any traces.

Sweden aided his machinations. The Swedish legation at Buenos Aires forwarded his messages to the Stockholm foreign office as their own official messages.

This was a distinct violation of neutrality which is likely to result in a delicate situation between the United States and Sweden, while Argentina is expected to plunge into war now that she sees Germany's schemes are bared.

FIVE BUILDINGS IN RUINS

Two Killed and 30 Injured in Explosion at Government Arsenal.

Philadelphia, Pa., Sept. 8.—Five buildings at the Frankfort government arsenal are in ruins, two workers are dead and 30, including several women, are injured following a series of five explosions early today. Col. Montgomery, commandant of the arsenal would make no statement regarding the cause of the explosions.

WEATHER

Partly cloudy tonight cool; Sunday fair and cool.

WILLARD AND HIS SHOW ARRIVE HERE

Jess Sleeps Late and Boys Linger Around His Private Car Are Disappointed

CHAMPION APPEARS IN SHOW

Circus Features Make Performance More Pretentious Than When Buffalo Bill Owned It

Interest in Jess Willard—Buffalo Bill wild west show here today just naturally gravitated around Jess because Rushville does not have world champion fighters "in its midst" every day in the year. Jess has a private car of his own and acted like a regular "boss," staying "in the hay" until about eleven o'clock. He said he didn't want to get up before breakfast.

The small boys who keep up on the sporting "dope" lingered around the private car for a few hours this morning with the vain hope they would get to see a real, live champion in flesh and blood without having to pay or sneak into the "big top." But Jess disappointed them by sleeping late.

The publicity agent assured a representative of the Daily Republican that Willard would appear in ring costume at both performances of the show at 2:30 and 8:30 and would meet all comers. He does a sparing stunt as a part of the show program.

Willard has declared in every town his show has appeared in this season that he is ready to meet Fred Fulton, a candidate for heavyweight honors, and he confirmed this statement today. Fulton recently whipped Carl Morris and put himself nearer Willard's class.

The show pulled in this morning from Richmond over the Pennsylvania between four and five o'clock and was all unloaded by eight. It will lay over in Louisville Sunday and show there Monday. The publicity representative said the show had been enjoying big crowds every place, but at Richmond yesterday the attendance was cut down by the rain. The wagons showed the effects of a heavy rain this morning.

The parade moved shortly after ten-thirty o'clock, the advertised time, and was seen by thousands of people who lined the streets. The size of the crowd here today, however, was cut down by gloomy weather.

The show under the management of Willard is a more pretentious affair than when the famous Buffalo Bill was in charge, because the circus features has been added to the wild west part of the show.

TOM J. GERAGHTY WRITES A SCENARIO FROM LATE NOVEL

Former Rushville Newspaper Man's Adaption of "A Man's Man" For Screen is Praised

WRITES FOR HENRY WALTHAL

Tom J. Geraghty, former editor of the Daily Republican, who went from here nine years ago to the New York Herald, has written a scenario from Peter J. Kyne's novel, "A Man's Man," in which J. Warren Kerrigan will be starred. It will be released by the Triangle Distributing Corporation for the first time Sunday, September 23, simultaneously in New York and sixty cities throughout the United States.

Mr. Geraghty is writing an original picture play for Henry Walthall, a movie actor who is very popular here. Mr. and Mrs. Geraghty and children are living now at 1912 Pinchot Road, Hollywood.

California, which is in the heart of the moving picture producing industry.

"A Man's Man" was produced by the Parlatore Plays, Inc., which was organized by Carl Anderson and his associates and which has been in existence but about five months. In that time it has formed two independent producing corporate units headed by J. Warren Kerrigan and Bessie Barriscale, established one of the largest studios on the West Coast, directed by a notable producing staff, and now has practically ready to release four star feature productions. This is considered "going some," even in the motion picture industry, where things progress very fast indeed.

Concerning Mr. Geraghty's adaption of "A Man's Man" for the screen, a story sent out in publicity matter by the Parlatore Plays says: "Many authors and dramatists re-

RUSHVILLE HAS CHANCE TO GET GLIMPSE OF AVIATORS

C. S. Lee Writes New and Longer Routes From Dayton to Indianapolis Are Planned

VISITS AVIATION SCHOOL

Rushville has an opportunity to get many a glimpse of the aviators training for service with the American army in France if the citizens will interest themselves in a movement to have this city made a way point along a route proposed for long distance trial flights between Dayton, O., and Indianapolis, according to a letter received by the Daily Republican from a former editor, Clifford S. Lee, now associate editor of The National Republican.

Mr. Lee, during a recent visit to Dayton inspected the Wilbur Wright Field where army aviators are in training and sends an interesting letter as to what he found there.

FREE-FOR-ALL IS ADDED TO PROGRAM

Pace Additional Attraction at Fair Friday And Effort Is Made to Get Good Horses

LAYING OVER IN INDIANAPOLIS

The addition of a free-for-all pace to the program of the Rush county fair, announced today, should stimulate interest in the races and bring an exceptionally good class of horses here. The free-for-all pace has been added to the program for Friday afternoon and Everett Piper, superintendent of the speed department, was in Indianapolis today to get entries for the event. A number of good horses were going to lay over at the state fair grounds next week, but would come here with a free-for-all pace.

This race will be added to the regular program. A number of horses began arriving at the grounds today and by Monday the capacity of the stables is expected to be taxed. A large number of draft horses were at the fair grounds today and this department promises to be well filled.

The racing this year will not start until Wednesday. On this day three races are on the program.

AUSTRIAN LOSSES AT LEAST 120,000

Killed, Wounded and Taken Prisoners by Italians Since August 15 Will Number This Many.

FIGHTING AT TWO POINTS

(By United Press.)

London, Sept. 8.—Austria has lost at least 120,000 killed, wounded and taken prisoner by Italian forces since Aug. 15 when General Cadorna assumed his great offensive. Prisoners alone total more than 31,000.

These figures were contained in

semi-official dispatches today. They

indicate the tremendous drain on the

dual monarchy's man power which

has forced Vienna to demand rein-

forcements of Berlin.

Fighting was continued at two

points on the battle front today at

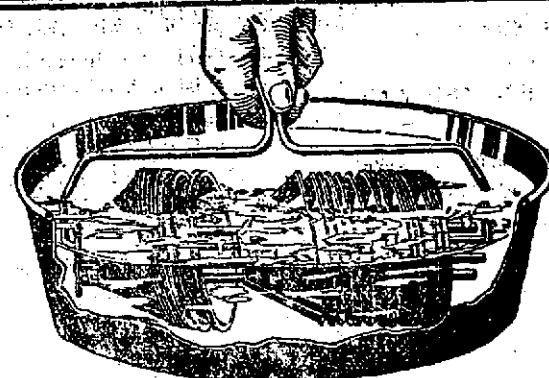

Monte San Gabriele and south of

Permade. Rome describes the sit-

uation as entirely "satisfactory" to

the Italian troops.

You can't make good cream with a dirty cream separator

CREAMERYMEN AND BUYERS all over the country are demanding better cream, and if you sell cream it is to your advantage to deliver the best possible cream.

IF YOU MAKE BUTTER IT is equally important that your cream be first-class. Good butter can't be made from poor cream.

THE ONE FACTOR THAT most largely determines the quality of cream is the sanitarness of the cream separator bowl in which it is separated.

THE EASE WITH WHICH the De Laval can be thoroughly washed, and kept in a

sanitary condition is one reason why creamerymen prefer cream separated by the De Laval and it is likewise one of the reasons why butter made from De Laval cream has scored highest at the National Dairy Show for over twenty years.

THE CONSTRUCTION OF the De Laval is such that it can be completely taken apart for washing. There are no tubes, crevices, holes or corrugated surfaces such as are found in other machines, and which are very hard to clean.

THE DISCS ARE WASHED AS a single piece, and the whole machine can be thoroughly cleansed in five minutes.

Don't fail to see our display of Separators, Engines, Grinders, Etc., at the Rush County Fair

WHISKEY MAKING TO END AT 11 P. M.

But Whiskey Drinking Does Not End
Because There Are 232,404,870
Gallons Stored

IS EFFECTIVE FOR THE WAR

Prohibitionists Declare, However,
Manufacture of Whiskey Will
Never be Known Again

Washington, Sept. 8.—Whiskey making in the United States ends legally at 11 o'clock tonight.

But whiskey drinking does not end. There were 232,404,870 gallons of it stored in warehouses at the last report, not to mention supplies in saloons, wholesale liquor stores with licensed liquor dealers. This supply will last several years.

While the food control law under which John Barleycorn is knocked out, is effective only for the duration of the war, prohibitionists declare whiskey making never will be known again in this country. They are confident that with the experience gained from the present war experiment, nation-wide prohibition will soon be adopted by federal constitutional amendment.

John made a hard fight in Congress before the knockout was administered in Section 15 of the control law. Herbert Hoover counted John out in order to save about 40,000,000 bushels of foodstuffs to fight the war.

What will happen to whiskey distilleries is problematical. Some have already announced they will go out of business. Others' plan to continue making alcohol for industrial purposes. Many may enter other lines—even making malted milk.

The law prohibits the making of distilled spirits for beverage purposes. Straight alcohol and denatured alcohol may continue to be manufactured. There are about 700 plants equipped for making alcohol in this country. Only about 600, however, actually have been making whiskey.

Hoover's order stops all processes in the production of whiskey at 11 p. m. "The use of foods, fruits and food materials or feeds may not even be initiated unless the entire process may be fully completed prior to 11 p. m." his order stated.

He did not give John Barleycorn a single moment's grace. While 30 days from date of approval of the law—August 10—would be tomorrow, Sunday, Hoover fixed the date of John's demise at 11 p. m. to-night because the internal revenue laws prevent the operation of distilleries between 11 Saturday night and the following Monday morning.

Two other "dry" provisions in the food bill have not yet been acted upon by Hoover. One gives the President the right to commandeer any or all distilled spirits if necessary for redistillation and use in munitions making or other military purposes. The other empowers the President to limit, regulate or prohibit the use of foodstuffs to make beer.

Amusements

The Princess offers "Broadway Jones" for the program again to-night. George M. Cohen is featured and the story is a typical American one. Those who saw the picture last night were highly pleased with the production. Jones played by Cohen is sour on his home town of Jonesville and goes to New York to do a little advertising. The stunts he does on Broadway gives him the necessary advertising. There is a good story interwoven. Monday Ethel Clayton will be seen in "Yankee Pluck."

The Gem will show Charles Chaplin in "The Floor Walker," for the first picture tonight. It is said to be a great comedy showing this famous comedian at his best. The second picture is a drama, "The Resurrection of Gold Bar," in which True Brodman is featured. The last is a comedy, "Jerry's Finishing Touch." Monday the five act feature, "The Last of the Carnabys" will be shown.

Personal Points

Miss Helen Hale of Carthage visited friends here yesterday.

Charles Simpson of Manilla spent the day here with friends.

Leo Strack of Indianapolis was a business visitor here yesterday.

Mrs. Earl Harcourt of Milroy was among the visitors here today.

E. B. Poundstone spent the day in Indianapolis on business yesterday.

Mr. and Mrs. E. E. Aronelde of Greensburg visited in this city today.

Theodore Case of Cleveland, Ohio, is visiting Mr. and Mrs. H. G. Haydon.

William Hale and Roy Small of Carthage visited friends in this city yesterday.

George K. Jones of Indianapolis was among the business visitors here yesterday.

Mr. and Mrs. L. B. Weaver of Greensburg visited friends in this city today.

Kenneth Lambert of Anderson is spending the week-end with Harold Miller.

Mrs. John Thomas and Mrs. John Huber of Greensburg visited friends here today.

The Misses Flossie and Zuba Jackson of Raleigh were among the visitors here yesterday.

Miss Helen Norris went to Indianapolis this morning for a visit with Miss Gretchen Mueller.

Mrs. Louis C. Hiner has returned from a two weeks' visit with relatives in Connerville.

Mrs. Charles Stewart and sons of Milroy spent the day here with her mother, Mrs. Anna Beachard.

Mrs. Warden Wyatt and family returned this morning from an extended stay at Bay View, Mich.

Mrs. Inez Craig has returned home from Connerville, where she visited relatives for a few days.

Miss Pearl Kitchen has returned from an extended visit with Miss Lena Buell of Raton, New Mexico.

Miss Anna Poundstone left for Bluffton, Ind., yesterday, where she will visit Mrs. Lida Ryke Stogdill.

Mrs. Charles H. Brown left for Kokomo today, where she will visit Mr. and Mrs. Harrison Mills and family.

Wayne Daubenspeck, Chester Wind and Clifford Stevens left to-day for an extended motor trip through the west.

Mr. and Mrs. Emmett Fegley and daughter, have gone to Delaware and Toledo, Ohio, for a two weeks' visit with relatives.

Miss Millett and Harry Edisor returned to their home in Peru today after visiting Mr. and Mrs. John McCoy for the past week.

Neff Ashworth of Ft. Benjamin Harrison is spending the week-end with Mrs. Ashworth and other relatives and friends here.

Mrs. Sarah Green returned to her home in Indianapolis today after visiting friends here and attending the funeral of Mrs. Armstrong.

Mr. and Mrs. Ralph Champion and daughter Sara of Columbus Ind., will spend the week-end here with Mr. and Mrs. Wilbur Wilson.

Mr. and Mrs. Amos Baxter and family will go to Decatur county to-morrow for a visit with Mrs. Baxter's sister, Mrs. J. W. Gayer, and family.

Mr. and Mrs. J. Q. Thomas were called to Shelbyville this afternoon, on account of the death of Mrs. Thomas' sister, Mrs. Julia Hogue.

Miss Gladys Watson has returned from Westerville, Ind., where she visited her aunt, Mrs. Emma Higbee, and attended the state fair.

Mr. and Mrs. J. W. Giltner of Pittsburg, Penn., will come tomorrow for a visit with Mrs. Lowell M. Green. Mrs. Giltner is a sister of Mrs. Green.

Mr. and Mrs. R. G. Budd and daughter, Miss Alleine, have returned from a visit in Indianapolis, and were accompanied home by Miss Katherine Skilling of Baltimore, Md.

Mrs. Henry Gemmer and son Rudolph returned to their home in Huntington, Ind., today after a visit with Mr. and Mrs. H. G. Haydon and family and Mr. and Mrs. W. O. Fendner.

THE DAILY REPUBLICAN. RUSHVILLE, IND.

PRINCE OF WALES WINS ADMIRATION

Soldiers All Like Him Because He Is One of Them and Not Spoiled By Title.

TAKES UNNECESSARY RISKS

Privates Were the Last to Accept Him as a Real Soldier and This Made it Difficult.

(By United Press)

London, Aug. 16, (By Mail)—If kings had to be elected, there is one private in the British army who would put his cross in the circle opposite the name of Edward the Eighth, the present Prince of Wales. Young Edward won his vote in the second battle of Loos.

The private is a runner attached to a Surrey regiment, who was coming back from an early morning attack with the news of how the fighting was going.

He was still in the zone where shells were dropping with bothersome frequency and was hustling to get out of it. He saw approaching a young man picking his way leisurely among the shell-holes and hillocks.

"What the blankey-blank-blank are you doing out here?" he demanded of the stranger.

"None of your blankety-blank business," was the cheerful response as emphatically profane as his own greeting.

Coming nearer, the private saw he had been "cussing" an officer, a second lieutenant. Nearer still and he recognized the grinning countenance of the next King of England.

He sought to apologize, but the Prince insisted on regarding the matter as merely one of the humorous incidents of a very interesting war, suggesting, in so many words, that the private "forget it."

Stories about the Prince are not hard to find, among privates home on leave. These privates were the last to accept the Prince as a real soldier. He had to stand an even more grilling course of observation by the Tommies than other officers undergoing which any officer knows is sufficient.

When the Prince first went to France zealous generals, fearful of

anything happening to the throne's heir while in their "zone" did endeavor to keep him away from the danger spots. Intensely sensitive of his prominence, the Prince began taking unnecessary risks when chance offered; the only way to stop him was to allow him to take his chances with his comrades in the ordinary risks of duty.

The result was that in the streets of Ypres, in innumerable "suicide corners" and "machinegun valleys," "dead-men's holes" and other unhealthy spots the Prince has won the complete approval of the men.

"Saw him bowling across Eleven O'clock Square just before Fritz was due to open up," said one. Eleven O'clock Square is a well known place in a much shelled town where a German 5.9 stopped the public clock at the hour of 11. "An Engineer not knowin' 'im said, 'better 'op it, sonny, the band's just startin.' Crump, comes an eight-incher right into the square, but 'e only laughs and ducks into a doorway."

Or perhaps the story will be: "We

were being posted something cruel by them big minnies (trench mortars) when a little feller crawled round the corner of our trench. He was as dirty as a sapper, but I recognized him. It was the Prince. He's huntin' for the Mayor, he says and when I points out the Mayor's dug-out he goes on as coolly as an A. S. C. driver at a ration dump."

Life in the field, officers say, has done wonders for the Prince. He is as hard as nails, and from a shy, hyper-sensitive youth oppressed by the cares of rank and knowledge of

what was expected of his position, he has developed into a cheery, fearless young man, who has proved his right to mingle with the brave on equal terms.

Willard Everett, who is a member of the marine corps, stationed at Quantico, Va., who has been visiting his parents at Morristown, was here yesterday and visited Mr. and Mrs. John McCoy.

Mr. and Mrs. Harry Sparks, Miss Mary Louise Miller and Miss Ruby Sparks left this afternoon for Chicago where they will spend a few days.

Mr. and Mrs. R. G. Budd and daughter, Miss Alleine, have returned from a visit in Indianapolis, and were accompanied home by Miss Katherine Skilling of Baltimore, Md.

Mrs. Henry Gemmer and son Rudolph returned to their home in Huntington, Ind., today after a visit with Mr. and Mrs. H. G. Haydon and family and Mr. and Mrs. W. O. Fendner.

The Gem will show Charles Chaplin in "The Floor Walker," for the first picture tonight. It is said to be a great comedy showing this famous comedian at his best. The second picture is a drama, "The Resurrection of Gold Bar," in which True Brodman is featured. The last is a comedy, "Jerry's Finishing Touch." Monday the five act feature, "The Last of the Carnabys" will be shown.

With The Churches

The services for the First Presbyterian church for Sunday are: Quiet Hour, 7:00 a. m.; Bible school, 9:30; divine worship, 10:30. The subject of the sermon will be "Add to Your Faith, Knowledge for the Vital Importance of our Schools;" evening worship at 7:30, at which time the pastor will preach on "The Greatest of the Beatitudes." Prayer meeting will be held Thursday evening at 7:30 o'clock.

First Baptist church, C. J. Bunnell, pastor, will hold services as follows: Sunday, 9:30 a. m.; public worship, 10:45 a. m. and 7:30 p. m.; subject for the morning sermon, "Abiding in Christ"; theme of evening sermon, "Christian Hopefulness." Midweek prayer service will be held on Thursday evening. The general public is invited to all of these services.

The Rev. John T. Aikin will preach both morning and evening at the United Presbyterian church Sunday. The subject of the morning sermon at 10:45 o'clock is "Paul's Estimate of Life," and in the evening the subject will be "Following Afar." Bible school at 9:30 a. m. Young peoples meeting at 6:30 p. m. and congregational prayer meeting on Thursday evening at 7:30 o'clock.

The regular services will be held at the Main Street Christian church Sunday, with Sunday school at 9:15. There will be preaching by the Rev. George R. Sweny of Columbus both morning and evening.

Services at the Glenwood United Presbyterian church Sunday as usual. Bible school at 1:30 o'clock and preaching at 2:15 o'clock by the pastor, the Rev. John T. Aikin.

The Rev. J. A. Parker of this city will preach both morning and evening at the Fairview church Sunday.

AZALIA CROSWELL GRANTED DIVORCE

Is Given Decree From Francis Crosswell Upon Payment of Costs and \$3.50 a Week

MONEY TO SUPPORT HER CHILD

Mrs. Azalia Croswell was granted a divorce from Francis Croswell today in circuit court upon payment of the costs and given the sum of \$3.50 a week for the support of her child. Croswell defaulted. Mrs. Croswell alleged cruel and inhuman treatment and abandonment. Prosecutor Stevens appeared for the state and Young and Young represented the plaintiff.

The damage suit set for Monday, the case of Robert Bowman against the Indianapolis Traction and Terminal company, was dismissed today at the plaintiff's cost. The case was sent to this county on a change of venue from Hancock county. A special venire of twelve men had been called for jury service in this case but now they will not be needed.

Days Pickings

Ambrose and Martin Joyce are suffering with diphtheria at their home in West Second street.

A marriage license was issued today to John Mann of Shelby county and Mrs. Ada Hewitt of this county.

A marriage license was issued Friday to Thomas B. Havens, an employee of the Greensburg postoffice, and Miss Helen E. McClain.

The right spindle on a machine driven by Lote Carter of the Bowen garage broke this morning as he turned from Perkins street west into Fifth street. The wheel came off but the car was not damaged aside from the broken spindle.

I. O. Harrison, former superintendent of schools, sold 83 acres of land in Anderson township today to John G. Hammond of Milroy for \$14,668.50. The sale is the largest for some time in Rush county and represents an outlay of \$176 an acre.

Mr. and Mrs. Harry Sparks, Miss Mary Louise Miller and Miss Ruby Sparks left this afternoon for Chicago where they will spend a few days.

**Chance For Farmers**

Most farmers have sold in the last few weeks the highest priced wheat they ever raised. Their yields were larger than in many years. They have corn crops coming on that are going to yield well and will bring prices they have never before been paid or even dreamed of.

Along next month some time the government will start a campaign for a second Liberty Loan. It may be to sell two billion or it may be to sell three billion dollars worth of Liberty Bonds. It remains for the farmers to help materially with this campaign. The first Liberty Loan came at a time when many farmers had all their surplus in circulation. The second Liberty Loan will be more opportune.

In this time of war there is a special duty laid upon every American citizen. Some have to bear arms and risk their lives and safety on dangerous seas and on the battle fronts in Europe. Others must care for those who are wounded and in performing that duty risk their lives almost equally with those who do the actual fighting. There are so many brave Americans performing such duties for their country that those of us who remain at home in safety and security must needs feel the obligation on us to do our part.

The farmers of America have an important duty, a vital national economic function imposed upon them. They must provide food for our armies, food for our families at home and food for our Allies abroad. The great and vital importance of this service has been recognized and the farmers of the country are directed to be given and will receive especial considerations in the matter of exemption from military service.

The service that the farmers of America are to perform is in the highest degree patriotic, but it is to be profitable, too. Never before has the American farmer had such a market for his products or such tremendous purchasers as he has now in the governments of the United States and our allies. And the funds with which these products are to be purchased are practically raised by the sale of Liberty Loan Bonds.

Buying a Liberty Loan Bond is not making a gift. It is the safest of investments, and considering also its rate of interest and non-taxable feature it is a remunerative investment of the first order. Some pronounce it the premier security of the world.

The farmers of America are given an easy way to serve their country, show their patriotism, and greatly benefit themselves. Money is needed to feed, equip, arm, and clothe our soldiers at the front. And money is needed, too, to buy the products of America's farms for our army and navy and the armies and navies of our allies. A great proportion of this money has been raised and is to be raised by the sale of Liberty Loan Bonds. The farmers in supporting the Liberty Loan serve his country, his people and himself, and he serves, too, the cause of liberty and civilization.

Working For Nothing

There are not many folks nowadays working for nothing, but in the ranks of the Red Cross hundreds of thousands, possibly millions, are giving a portion of their time every day—many of them all of their time—unselfishly and joyfully.

They all do it for their love of country and a desire to see the United States victorious in the war. They can find examples in the executive section of the Red Cross. Some salaries are paid, but many men who can command enormous salaries, are devoting their whole energy to the Red Cross.

One year ago, on a peace basis, with only about 200 chapters and a little over 200,000 members, with annual funds of only a few hundred thousand dollars, the Red Cross employed at its headquarters in Washington 75 paid officers and employees, of whom 29 received salaries of from \$2,000 to \$7,500.

At the present time, with the Red Cross on a war footing, with 2,600 Chapters to administer, 3,621,011 members and a war fund of \$100,000,000 pledged, Red Cross national headquarters employs 624 paid officers and employees, of whom 46 are paid salaries of \$2,000 a year or more.

In other words, since the war was declared, 559 paid officers and employees have been added to Red Cross headquarters' staff and of that number 17 receive salaries of from \$2,000 to \$6,000 a year. The highest salary added since war was declared is \$6,000. The highest paid official in the national organization received \$7,500, and he was on the staff on a peace basis.

Of those receiving less than \$2,000 a year, 49 now receive salaries of over a hundred dollars a month. There are 38 clerks being paid one hundred dollars, while clerks and messengers receiving less than \$100, number 491.

In addition to paid officers and employees in national headquarters, the number of full-time volunteers now contributing their services to the Red Cross is 77. Practically all the important administrative positions created since war was declared are filled by volunteers.

During the last month, although the number of Red Cross members has increased from 2,547,412 to 3,621,011, and the administrative work at national headquarters has increased substantially, the number of paid employees has decreased from 707 to 624. This is partly to be accounted for by the decentralization of the work among thirteen territorial divisions under a new plan of organization adopted by the War Council.

The Dutch scientist who built a room with vacuum walls to give him quiet, went to unnecessary trouble and expense. Most any business house that doesn't advertise could meet his need.

There is nothing strange in the claim of an European scientist that he can make diamonds from chips. Many a chip off the old block has turned out to be a diamond in the rough.

A New Jersey soldier, convicted of bigamy, has been sentenced to serve a term on the French front. We had no idea the New Jersey courts were so lenient.

President Wilson has decided that conscientious scruples need not disqualify a man from active service in road building. Right Shoulder, Shovels!

OIL MAN ON TRIAL

Lebanon, Ind., Sept. 8.—Harold Hughes, local representative of the Western Oil and Refining company, today went on trial here charged with selling uninspected oil. Charges were filed by Marion Caldwell, state supervisor of oil inspection.

Caldwell alleged that Hughes sold uninspected kerosene to John Thomas of Lebanon; that the oil was of low flash test; and that because of its low flash point, Mrs. Thomas, wife of the purchaser, was burned to death.

Will Italy's Big Drive Open the Road to Berlin?

Canadians forcing their way through the shell-shattered streets of Lens, French soldiers retaking Dead Man's Hill at Verdun, Italians swarming over Holy Mountain, and pushing along the well-defended slopes of the Bainsizza and Careo plateaus on their way to Trieste, are speaking a message plainly heard above the thunder of their guns. It is a reply to the Pope's peace plea antedating the polite notes of the Allied diplomats, so some editors believe.

That Italy now has the best position of any of the Allies, is the opinion of a United States army expert, whom the New York *World* quotes as saying that "during the present year the Allies are looking to Italy alone to carry out an offensive which may have a tremendous effect upon the outcome of the war. . . . If the present Italian offensive compels the Austrians to retire from the mountain regions completely and give the Italians an opportunity of holding them securely until next Spring it can readily be seen that these forces will be able to play havoc with the present Teuton lines on all quarters."

In THE LITERARY DIGEST for September 8th, there is an illuminating article which analyses from various view-points the operations on the Western Front and in Austria during the past few weeks. It is accompanied by a map showing the portion of *Italia irredenta* already reclaimed, and other illustrations.

Other topics in this number that will hold the interest of every reader are:

FIGHT FOR YOUR LIFE

Duty Demands Robust Health

Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by his and alls. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a pray to ill after all.

You will not find this class of persons in the hypoferin ranks. No unhealthy, dull, druggy, droopy persons in that line. It is a Hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferin stands for sound body and sound mind—it is the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferin contains these mighty strength-producing agents, lecithin-and-iron peptone, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the blood. In some cases, out of ten a run-down condition, yellow, pale complexion, that "all in" feeling and frail bodies are due to lack of lecithin-and-iron peptone in the system.

Your mental and physical strength and endurance depends upon a lecithin-and-iron peptone laden blood; steady, dependable nerves and a healthy stomach. With these you can meet life at any angle.

This wonder tonic, hypoferin, which is as perfect as science can get to nature, meets every essential demand of the human organism. It is safe and sure and a boon to run-down, worn-out men and women. Hypoferin means natural energy, strength to the body and keeping the vigor and buoyancy of youth. The power and pain way of effecting beauty is not needed by hypoferin women and girls. Their blood, filled with nature's beauty stores, creates conditions that give firmness and grace to the body and the girl with a clear complexion.

No need of going through life sickly and always feeling miserable in this age of medical science. Join the hypoferin ranks. It puts into you the springy snap and vigor you ought to have and puts life to your body and mind that insures the confidence and well-being of the world over.

Hypoferin may be had at your druggist's or direct from us for \$1.00 per package. It is well worth the price. The Santane Remedies Co., Cincinnati, Ohio.

TO RESUME WORK ON A WAR BASIS

Colleges of State Will Offer Military Drill and Strict Economy Will be Made

SOME WILL BE COMPULSORY

Special Courses In Red Cross Work, First Aid and Nursing Will Also be Given

Indianapolis, Sept. 8.—Indiana's many colleges are about to resume work on a war basis.

Thousands of male students will return to erstwhile peaceful surroundings to find themselves drafted into collegiate armies, forced to drill and study military tactics.

Strict economy will mark athletics in the majority of Indiana colleges this fall.

But how about football?

This rough and ready pastime of the colleges will be retained in almost every school where it held forth in peace times, but it will also feel the restricting touch of war.

Many college presidents told the United Press that the pinch of war prices plus external conditions, such as transportation, and the reduction in number of college men occasioned by the draft would curtail such sports as football—always popular in the Hoosier state.

But a strenuous effort will be made to retain the game. The number of inter-collegiate games will be reduced in many instances, but intramural and inter-class games will be substituted. The feeling in general is that the strenuous game of football is essentially a war-time sport.

However, the outstanding feature of the poll of colleges was the reply that military training—in several cases compulsory—would be instituted. Those colleges which have had military training, are planning to broaden the courses.

At Indiana University, greater effort than ever before will be made to get every student interested in some form of physical education as a result of the war. Among the special courses that will be offered at I. U. the coming year are Military Science and Tactics. Two courses will be offered in the Geology department, where students may gain experience in Topographic and Map Reading. Courses will be offered Aeronautics and Military Aeroplanes.

Special courses will be offered in Red Cross work in First Aid, Nursing, Surgical Dressings, and the Making of Hospital garments. Special courses will also be offered in Civilian Relief and the Care of Dependent families.

Valparaiso University will offer military instruction and drill. An instructor in military science has been added to the faculty. One year of French has been added to the course.

"I believe all institutions of learning should offer the same courses as heretofore, with just as little change as possible," declared Henry Kinsey Brown, of Valparaiso. "For if there ever was a time when schools should be of real service to the government, it is now. The present war demands highly trained men and women and this demand will increase as the war continues. There never has been any doubt about the need for trained men and women in a period of reconstruction."

Notre Dame already had compulsory military training but the faculty is considering broadening the course. It has also had practically compulsory athletics, so the war is expected to have but little effect on the athletic program there.

Rose Polytechnic expects to broaden its military training course, instituted last year, to include some work in military topographic surveying, temporary engineering structures, but details have not been definitely determined.

St. Joseph's College expects little change in its work due to the war because the main object of the school is to train students for the priesthood.

Hanover may discontinue football but no decision has as yet been reached. However, for two years, Hanover has been considering the proposition of the substitution of intra-mural athletic for inter-collegiate. And any action if taken will not be due to the war.

BUTTERMILK LEMON IS LATEST DRINK

Barnard Discovers Wholesome, Satisfying Beverage And Recommends It to Hoosiers

THREE LEMONS TO QUART

(By United Press.) Indianapolis, Sept. 8.—Hoosiers—meet "buttermilk-lemonade."

We have it on the word of Dr. Harry E. Barnard, Indiana food controller, that it's some drink. Want to try it?

Well here's how.

Whether you buy buttermilk from your milk man or prepare it in your home from sweet skim milk, you can greatly improve its palatability and as well introduce a delicious variant into your list of summer drinks by serving buttermilk lemonades. In making this drink it is only necessary to add the juice of three lemons to one quart of buttermilk, mix thoroughly and sweeten to taste.

This beverage served cold satisfies with its acid flavor and nourishes at the same time. Buttermilk is a rich and wholesome food. A quart furnishes more than an ounce of protein, on of the rich body builders.

No cheaper wholesome and satisfying beverage can be found than good cold buttermilk and when served as a lemonade all its original excellent qualities are enhanced. Treat yourself to a buttermilk lemonade.

BEATING RAIN DOES DAMAGE TO THE CORN

Many Fields Are Down Today and Will Cause Farmers Trouble When They Sow Wheat

STREETS IN CITY ARE FLOODED

The heavy, beating rain Friday evening at six o'clock, general over the county, resulted in considerable damage to the corn. A large amount of corn was beaten down and while the loss will not be so heavy as to the actual damage to the corn, it will cause much difficulty in sowing wheat this fall. Prior to yesterday's rain the corn for the most part had stood erect in the fields.

The rain in Rushville was the heaviest in many months and in many places the sewer system was not adequate to carry away the water, resulting in streets being flooded and sidewalks being impossible. The rain resembled a cloud burst and continued for almost an hour.

TOM J. GERAGHTY WRITES A SCENARIO FROM LATE NOVEL

Continued From Page 1
fuse to sell the moving picture rights to their works. They say that by the time the scenario writer and the producing director get through with their stories, "a literary father cannot recognize his own child."

This will not be Peter B. Kyne's complaint in relation to "A Man's Man," in which J. Warren Kerrigan plays the principal role. The scenario of this novel was made by Thomas J. Geraghty, a newspaper man who graduated from the editorial room with a hat full of brains well developed by years of observation and experience.

He followed "A Man's Man" in exact continuity and left out no incident which had a place in its actual dramatic and pictorial development.

The result is that everyone who reads "A Man's Man" and then sees it on the screen, will realize that the one who translated it from cold type to motion pictures was an artist in his line.

Tom Geraghty puts the same horse sense into his scenario writing which characterized his as a news editor. He knew news when he saw it. Now he knows the picture value of any story that comes to his hand and he translates it for screen production so well in every way that the author is not disposed to dodge the paternity of his brain child.

Insulation

Every part of your electrical system must be made leak proof by insulation.

Inside your battery is the most important insulation of all—that which separates the positive from the negative plates, for this prevents the battery from "short circuiting," and thus putting the whole system out of commission.

In the Still Better Willard, the insulation is made of durable acid-resisting rubber.

Thus Willard Threaded Rubber Insulation means a better insulated battery, a more durable, more efficient battery.

Ask us about the remarkable service achievement of Still Better Willards on 35,000 cars.

You Can Take Hills on High Without a Knock

If you will keep your car free from carbon. That knocking in your engine—the difficulty you have climbing hills—poor pick-up—lack of power—noisy motor—pre-ignition—in fact 80% of engine trouble is caused by carbon. Clean it out with

Johnson's Carbon Remover

and your engine will run like it did the first 500 miles, quietly and full of "pep"—and you will reduce your gasoline consumption from 12 to 25 per cent.

You Can Do It Yourself

For 35 cents—five minutes time and with no labor, you, yourself, can remove all carbon deposits. Simply pour an ounce of Johnson's Carbon Remover into each cylinder—allow it to remain there from two to twelve hours. Then start your car and drive ten or fifteen miles. You will be surprised at the wonderful improvement.

Society

Miss Elizabeth Pierson was the hostess last evening to a coterie of her girl friends, when she entertained with a slumber party at her home in West Third street. This morning Miss Pierson entertained the girls with an elegant three course breakfast, Miss Mary Louise Wyatt, who returned from Bay View, Mich., this morning being the guest of honor. A large bowl of yellow and white flowers centered the table and all the appointments of the breakfast were carried out in the same color scheme. The girls enjoying the affair were; The Misses Phyllis Casady, Helen Thomas, Jean Sparks, Marguerite Kelly, Reba Beale, Janet Dean, Marjory Clark, Mary Louise Wyatt, Leatha Higgins and Helen Gray.

* * *

Miss Lentha Higgins entertained a number of friends with a wiener roast last evening at her home in West First street. After supper indoor games made a lively diversion for the guests and then the girls went to the home of Miss Elizabeth Pierson, where they were entertained with a slumber party. The guests who enjoyed the wiener roast were: The Misses Frances Bowen, Elizabeth Pierson, Marguerite Kelly, Phyllis Dean, Helen Thomas, Helen Gray, Reba Beale, Jean Sparks, Marjory Clark, and Jean Gates, Conwell Smith, John K. Tompkins, Ivan Alexander, Lotus Gartin, Frank Muire, George Poston, Harold Miller and his guest, Kenneth Lambert of Anderson, and Wayne Daubenspeck.

* * *

The home of Miss Alice Norris was beautifully decorated yesterday afternoon, when she entertained about twelve members of the Friday afternoon Embroidery club at her home in North Harrison street. Masses of delicate colored asters were used throughout the rooms and a pretty color scheme of lavender and white was carried out in the dainty refreshments which were served. The guests found ample amusement with their knitting and sewing during the afternoon.

* * *

Mrs. Mary Beele Reeves of Center township and Alonzo Newhouse of this city will be married at Danville, Ind., tomorrow by the Rev. Mr. Thomas. They will return here after the ceremony and will live on a farm in Center township. Mr. Newhouse has been associated with his son, Nalle, Newhouse, in the garage business for the last few years.

* * *

About eighteen members of the Emerson club had their regular bi-monthly meeting with Mrs. Lowell M. Green yesterday afternoon at her home in East Sixth street. Dainty needlework and knitting was a feature of the afternoon and the hostess served a delectable luncheon at the close of the meeting.

* * *

Mr. and Mrs. Homer Freeland and Mr. and Mrs. Elmer Weidner of Decatur, Ill., Mrs. Will Gardner and Orman Newbould of Sullivan, Ill., were the dinner guests of Mrs. J. W. Cassady and family yesterday at her home in North Morgan street.

* * *

Mr. and Mrs. Jacob Scull entertained with a well appointed six o'clock dinner last evening at their home in Milroy. Masses of asters embellished the center of the table. Covers were laid for nine among whom were Mr. and Mrs. O. P. Wamsley and daughter Oatherine of this city and John Reddick of Louisville, Ky.

* * *

The Ladies Aid Society of the Methodist church will meet with Hiner.

Stomach Troubles Since Childhood PERUNA Made Me Well

I Now Enjoy The Best of Health

Mr. Wm. W. Everly, 2225 North Hancock Street, Philadelphia, Pa., writes:

"I have been troubled with stomach disorders since childhood, but after taking six bottles of your Peruna, I now enjoy the best of health. I also had asthma in the head, which practically has disappeared, thanks to the Peruna Co. for their good work."

Those who object to liquid medicines can purchase Peruna Tablets.

RED CROSS TO LOOK AFTER PRISONERS

Organization Formed in Switzerland to Care For Americans in German Prison Camps.

WILL SEND THEM PARCELS

(By United Press.)

Washington, Sept. 8.—Americans captured and held in German prison camps are to be looked after by the American Red Cross. Already a Prisoners' Relief Committee has been organized under supervision of Ellis L. Dressel of the American Legation at Berne, Switzerland.

The members of the Tri Kappa will be entertained by Miss Olive Buell Monday evening at her home east of this city.

AMERICAN AIRMAN KILLED

Corporal Buckley Falls When Machine is Fired by Bullet

(By United Press.)

Paris, Sept. 8.—Corporal Everett Buckley, one of the Lafayette Escadrille, a resident of Chicago, was killed Thursday morning in an attack with two fellow American airmen against German planes, according to word received here today.

Buckley fell with his machine which had been ignited by an incendiary bullet.

Current Comment

Not Infallible

(Fort Wayne News)

A local paper solemnly asserts that since a story carried by the Associated Press put certain words in the mouth of Senator Watson, Senator Watson must have given them utterance, the assumption being that the Associated Press is an institution altogether righteous and infallible. The truth is, however, that it is a very human and fallible concern and that it is altogether dependent for the reliability of its news stories upon the character of its representatives in the towns from which these stories are sent.

Commission is Appointed Since Germany Menaces Petrograd

(By United Press.)

Washington, Sept. 8.—Petrograd's under vigorous discipline because of the German menace. A special commission has been appointed for the defense of the city. The Petrograd garrison has been placed under direct control of Gen. Koriloff, commander-in-chief of the Russian army, official cables to the Russian embassy announced today.

CITY IS UNDER DISCIPLINE

T. W. Green of Tacoma, Wash. Commits Suicide in Indianapolis

(By United Press.)

Indianapolis, Sept. 8.—T. W. Green, 63, wealthy tea and coffee importer of Tacoma, Wash., today ended his life by shooting himself. Leaving the home of his son in the darkness of the early morning, Green walked to the street, placed the barrel of a new revolver in his mouth and died instantly. Ill health is believed to have prompted his act.

D. W. MCKEE RETIRES

D. W. McKee, a well known Connersville attorney, has announced his retirement from the firm of McKee, Wiles and Elliott. Mr. McKee will not retire from active practice but will not attempt to play an important part in the business in the future as he has in the past. Mr. McKee is widely known in Rushville and has practiced here almost as extensively as in Connersville. He has been in the legal profession for the past forty-two years. Mr. Wiles formed a partnership with Clarence S. Roots.

AMOS BAXTER NEW AUDITOR.

Amos Baxter, formerly chief accountant, of the I. & C. Traction company, has been promoted to auditor of the company with the resignation of Frank Loftus, who has resigned to accept a position in the accounting department of the Remy Electric Company at Anderson. It is not known yet who will succeed Mr. Baxter as chief accountant.

Webster's Carbon paper, L. C.

WILBUR MAHIN ABOUT SAME.

Wilbur Mahin, rural mail carrier, who was hit by an I. & C. traction car Thursday morning at the Buell stop east of the city, was reported today to be in about the same condition as yesterday, which indicates that hopes are still held out for his ultimate recovery.

PROBE PACIFIST MEETING.

(By United Press.)

Indianapolis, Sept. 8.—Two investigations were under way by state authorities today of a meeting last night in Anderson of the Peoples Council of America for peace and democracy, which was denied the right of assembly in several mid-western states.

WILSONS ON CRUISE

(By United Press.)

New York, Sept. 8.—President and Mrs. Wilson slipped quietly into New York today and put aboard the presidential yacht Mayflower for a brief cruise. The president will keep in touch with Washington by wireless.

Webster's Carbon paper, L. C.

FARMER DIES IN BUGGY.

Noblesville, Sept. 8.—Layton Mendenhall, 73 years old, died in his buggy yesterday while driving to his farm. He was stricken with apoplexy. Among the children who survive him are E. J. Mendenhall of Sheridan and C. L. Mendenhall of Hendricks county, both of whom served several terms in the Indiana legislature. He had lived in Hamilton county sixty years.

Brassmen, Indians and Cossacks.

The historic days of the prairie and mountain country, when the pioneers were winning the West for the white man's civilization, is illustrated by the attack on the pioneers' camp by hostile Indians, the stagecoach hold-up, the pony express, the capture and punishment of a horse thief, and other stirring events.

The circus numbers present whirlwind acrobatics by the Mahmud

Berber Arabs, the Imperial Troupe

of Japanese jugglers and gymnasts,

Emily Stickney, principal bareback

rider, Mme. Marantette's high-

jumping horses, Rhoda Royal's

trained dogs, ponies and elephants

and statue horses, Prince Charles,

the famous acrobatic and bicyc-

eling chimpanzee, and many other

notable acts. A company of Uncle

Sam's artillery puts a touch of

stirring military life into the per-

formance.

MILITARY COMPANY AT SCHOOL

Kokomo, Ind., Sept. 8.—The Kokomo high school will organize a military company, which is to be under the command of Prof. T. A. Hansom, for four years lieutenant of a company at Purdue University. Students entering the ranks will be given credits.

JESS WILLARD AND HIS BIG SHOW ARRIVES

(Continued From Page 1)

One of the last admonitions of Col. Wm. F. Cody, known for half a century throughout the civilized world as Buffalo Bill, was "Let my show go on!" And in making this request, he named as his executor Johnny Baker, the famous rifle shot, who had been regarded by Col. Cody as his foster son and closest friend. Johnny Baker, who is still with the big Wild West, is co-operating with Jess Willard in carrying out in the great Borderland exhibition the wishes of the famous old scout and Indian fighter, and the show, is declared in every way to be worthy of the high standard set by its founder.

In a recent laudatory criticism of the big show, a New York newspaper remarked that "while the body of the great Cody rested on Lookout Mountain, overlooking the City of Denver, his spirit was in evidence in his great show," and this seems to be the universal verdict of those who have seen the exhibition this year.

For one thing, the performance offers, it is declared, an infinite variety of entertainment. The wild west and circus features are, it is said, so cleverly blended as to make a composite performance of constantly alternating light and shade. The cowboys, led by "Tex" McLoud, Tommy Kerman, Hank Durnell, Chester Byers and other noted range ropers and roughriders, present the sports of the cattle country with a daredevil recklessness that sends many a thrill through the audience. In this they are abetted by the no less daring cowgirls and a big company of roughriding Mexicans, old

and young.

SAMMY GETS BY
IF LINGO IS BAD
TIME TO EXPECT
THE FIRST FROST

Some Times They Have Hard Time Explaining But French Are Rapidly "Getting on"

GIVES MADAM FEW LESSONS

Quick And Resourceful Efficiency Has Overthrown Many Customs of Long Standing

By J. W. PEGLER
(U. P. Staff Correspondent)

American Field Headquarters, France, (Aug. 17—By Mail).—"Hey! Madame! Nix on that, see voo play. That's our own American soldier speaking French."

"Pas throwez dishwater in the front yards. C'est tres non-bon. Premiere thing you know there'll be tres flies buzzing around and then we'll all be mort a la typhoid."

A soldier from the states is standing in the door-way of the little white-washed French cottage where he makes his home during the training period, and Madame her dripping dish-pan held under one arm, is beginning to understand.

From his lingo she gathers that throwing dishwater into the doorway is one of the little things one doesn't do in America.

The soldier takes the dishpan from her, walks to the edge of the street and goes through the motions of pouring its contents into the gutter.

"Compray vous?" he asks, hopefully. "Compray. Pourez vous dishwater into el guttero." He aborbs some Spanish on the border.

"Ah Oui oui," says Madame, as the light of full comprehension spreads over her weatherbeaten face. "Veree good."

The quick and resourceful efficiency of the American soldier has overthrown many customs in these little French villages.

The Americans threw themselves into the valley towns all in a bunch. Details of soldiers cleared up the streets and since that day it has been everyone's duty to keep them clean.

Cleanliness came in the extreme degree—and came to stay. White-wash buckets appeared and the smudgy gray of old whitewash smiled anew in the brilliant sunlight. And sanitation came to the bairn-yard.

Altogether the villages were not much worse than some American farm villages. But they were not up to the army health standards until the soldiers made them so.

The French people have given the American boys a welcome such as no foreign troops ever before received in this country. The American soldier is saluted in grave military fashion by every French youngster along the road. And He salutes back.

The floppy-haired "Chasseurs" (Chasers)—the French regiment that is helping to train the Americans—has learned the meaning of "put'er second," and before long the French and Americans will be playing competitive ball.

On the other hand the American soldier has a speaking acquaintance with the waitress at the village hotel. When he drops in during the evening and asks for "trois hard-boiled oofs, avee pain et chocolat, toot-sweet," she comes back with a smiling "Sure Mike" and brings in the desired nourishment plenty quick.

BEGIN TO LOOK LIKE
REAL SOLDIERS

After Two Weeks Training Student Officers Resemble Real Thing—Appetites Doubled

WEATHER HINDERS WORK

Fort Harrison, Sept. 8.—After two weeks of strenuous army life new to many of them—students attending the second officers' training camp here today began to look like real soldiers.

Men who came here from their offices were as tanned today as the man who came here from the outside door life.

There was a snap and a zip to the movements of the men missing from

GARDNERS MAY LEARN PROBABLE DATE OF KILLING TEMPERATURES FROM GOVERNMENT RECORDS

SUPPLIED BY WEATHER MAN

Frost Need Not be Expected Here Before October 15 if 1917 Runs True to Form

Washington, Sept. 8.—Truckers and gardeners planning for late crops should be aided in determining their "best bets" on the first frost by referring to this historical summary of frost occurrences in various sections, just issued by the United States Weather Bureau:

Killing frost has never occurred earlier than September 10 south of the extreme southwestern portion of South Dakota, extreme southern Minnesota, central Wisconsin, and the interior northern portion of lower Michigan. It has never occurred earlier than October 1 south of the extreme north portions of Oklahoma and Arkansas, southern Tennessee, and the mountain districts of North Carolina and Virginia.

It has never occurred earlier than October 20 to the southward of the extreme northeastern portion of Texas, northern Louisiana, the central portions of Mississippi, Alabama, Georgia, South Carolina, and eastern North Carolina.

The chances are even that killing frost will not occur before September 15 in most of North Dakota, Montana, and the extreme northern portion of Minnesota. By the first few days in October killing frost occurs on the average one year in two as far as the southern portion of Nebraska, southern and eastern Iowa, southern Wisconsin, most of the interior portion of lower Michigan, and throughout the greater part of New England. By October 15 it may be expected in at least half the years as far south as the central portions of Kansas, Missouri, Illinois, Indiana, throughout eastern Kentucky, and the mountainous sections of the Virginias.

There is one chance in two that killing frost will not occur earlier than November 1 at the altitude of central Oklahoma, central Arkansas, and the northern portions of Mississippi, Alabama, Georgia, South Carolina, and eastern North Carolina.

The chances are even that it will occur by November 15 a little south of the central portions of Texas and Louisiana and well toward the southern portions of Mississippi, Alabama, and Georgia. This does not mean that killing frost will occur in the localities and on the dates specified every other year, but that in the long run it occurs, as indicated, in half the years.

There prevails in some sections a popular belief that in the season when frost may be expected its occurrence is largely influenced by the phase of the moon, or other periodic phenomena. Careful tabulation of frost data and its comparison with moon phases fails to disclose any such relation. All persons interested are therefore cautioned to watch, not the moon, but the forecasts issued by the Weather Bureau.

The floppy-haired "Chasseurs" (Chasers)—the French regiment that is helping to train the Americans—has learned the meaning of "put'er second," and before long the French and Americans will be playing competitive ball.

Actual life in the trenches, similar to those in Europe, is on the program within the next few days. The weather man has been begged for decent weather.

The men will soon be examined again physically.

Closer attention is now being paid to the study of military manuals.

AUTO CATCHES FIRE

The automobile owned by Robert Humes caught fire shortly after midnight this morning and the fire department was called. The machine was in front of the Farmers Trust company, and faulty wiring was said to have been the cause. The damage amounted to about five dollars. The fire was put out with chemicals.

**Look and Feel
Clean, Sweet and
Fresh Every Day.**

Drink a glass of real hot water
before breakfast to wash
out poisons.

Life is not merely to live, but to
live well, eat well, digest well, work
well, sleep well, look well. What a
glorious condition to attain, and yet
how very easy it is if one will only
adopt the morning inside bath.

Folks who are accustomed to feel
dull and heavy when they arise, splitting
headache, stuffy from a cold, foul
tongue, nasty breath, acid stomach,
can, instead, feel as fresh as a daisy
by opening the sluices of the system
each morning and flushing out the
whole of the internal poisonous stagna-
tant matter.

Everyone, whether ailing, sick or
well, should, each morning, before
breakfast, drink a glass of real hot
water with a teaspoonful of limestone
phosphate in it to wash from the
stomach, liver, kidneys and bowels the
previous day's indigestible waste,
sour bile and poisonous toxins; thus
cleansing, sweetening and purifying
the entire alimentary canal before
putting more food into the stomach.
The action of hot water and limestone
phosphate on an empty stomach is
wonderfully invigorating. It cleanses
out all the sour fermentations, gases,
waste and acidity and gives one a
splendid appetite for breakfast. While
you are enjoying your breakfast the
water and phosphate is quietly ex-
tracting a large volume of water from
the blood and getting ready for a
thorough flushing of all the inside
organs.

The millions of people who are
bothered with constipation, bilious
spells, stomach trouble, rheumatism;
others who have sallow skins, blood
disorders and sickly complexions are
urged to get a quarter pound of lime-
stone phosphate from the drug store
which will cost very little, but is
sufficient to make anyone a pro-
nounced crank on the subject of
internal sanitation.

RUSHVILLE HAS CHANCE TO GET GLIMPSE OF AVIATORS

(Continued from Page 1)
was a little white building with a red roof, standing off in a broad, green field to the left. "That," said our host, "will go down in history for it is the building in which Orville and Wilbur Wright quartered their first bi-plane and this is the field in which they conducted their first experiments in flying. We people in Dayton thought they were crazy or merely wasting time but we have lived to see their work bear fruit and grow to such tremendous importance and proportion that it is, I believe, destined to be the one big factor in winning the war and saving the world for Democracy."

"The little hangar—pronounced 'hanger,'—holds ones interest long after it is passed as one approaches the big flying field, named in honor of Wilbur Wright, the one of the two brothers now deceased. The original hangar is to be preserved as worthy of a place in history.

"Shortly we turned a corner in the road and caught sight of the immense government plant, miles of white and red buildings—hangars, machine shops, barracks, interspersed here and there with tents and improvised stables of canvas—long

open fields, drill grounds and a big flying field, covered entirely with clay and forty-four acres in extent, from which frequent clouds of dust arose as the bi-planes sailed from or alighted upon the ground. Four 'planes' (they are called by the abbreviated term here) were in the air at various heights, the buzz of their motors being distinctly heard from below. Hundreds of teams and workmen were engaged in road making, grading and in erecting buildings, for the big plant is not yet complete. The entire flying field for instance, is yet to be floored with concrete—forty-four acres of cement floor upon which the airships are to start and finish their flights. As we approached the field, in search of headquarters where Lieut. H. M. Sanford, assistant to Captain Jackson, adjutant was to supply us with the passes, without which it is impossible to go anywhere, sentries from the Third Ohio Infantry, encamped at the field as a military guard, stopped us right and left, and we had to do considerable maneuvering to reach the adjutant's office by telephone. Once in touch with the adjutant's office we were brought to headquarters under guard and the necessary credentials were issued. Lieut. Sanford detailed Sergt.-Major "Heinic" S. Schmidt from the headquarters staff to conduct us on our tour.

"Sanford" who is also censor at the camp, needed no assurance that we would not give out valuable military information but it was the sergeant-major's business to see that we didn't go where we were 'verboten' and he made good. Schmidt proved to be a most interesting and obliging fellow but he knew where to draw the line. And he was ably assisted by the sentries who, under strict orders were always on the alert.

"It was interesting to be shown about by a veteran of the army signal corps—who said that he is of German descent, hailing from Dubuque, Ia., but having relatives in Germany. 'However' said he, 'I am American to the core and out with the rest of them to lick the Kaiser.'

"By the time we had reached the hangars nine big gray student planes were in sight above us and the air resounded with the thunderous buzzing of their motors as the planes soared or volplaned overhead, like so many giant beetles or bugs. Each carrying an aviator and an observer. 'Not much flying is being indulged in this morning,' said Schmidt. 'Usually there are from twenty to twenty-seven planes up but there will be more directly.' It wasn't long until we counted eighteen in the air above. The noise from the motors was deafening for they were flying low, except in a few instances. Other planes were being taken to and from the hangars. Others were testing their motors and others skimming the ground in an effort to 'get off their feet.'

"The government has 2,600 acres under lease for the plant and a total of fifteen hundred men comprise the eight aero squadrons in training. Four hundred of these men are undergoing training as aviators. The remainder are the observers, mechanics and helpers. When at full war strength a squad-
TEL GRINDS DE VAULT
SHAWFETTE HAS CHANCE TO

ron numbers 154 men and three officers. There are 148 planes in service here and they are housed in 24 giant hangars—four to seven planes to a hangar. The camp is commanded by Major A. R. Christie, a veteran in the aviation section of the Signal Corps. Each plane is marked above and below with the emblem of the aviation section—a white five-pointed star in a blue circular field with a red ball in the center of the field. The tail of each machine carries three broad stripes of red, white and blue. Only the student planes—those of the Wright bi-plane type with Curtiss or Hall-Scott motors of ninety horse-power each are used here. The maximum flying rate is eighty-five miles an hour. The fighting planes to be used in France are of 400 horse-power and capable of making 140 miles an hour. The control on the student planes is the same as that on the battle plane but the fighting planes are self-starters. Each man in the aviation section is armed both with the regulation Springfield 30.30 rifle and an automatic Colt revolver of the regulation .45 caliber. The war planes are equipped with machine guns firing 300 shots per minute and are equipped to carry 1,000 pounds of bombs or ammunition.

"We met several officers and aviators and I was impressed with bright, alert, keen, clear-cut features. The men are all from the best professions and trades. Many of them were formerly attorneys at the bar or business men and ninety-two per cent of them are college bred.

"The aeroplane has been developed one of the flyers told me, 'until the state of the weather makes no difference to the experienced flyer. The beginner is taught to go up and come down against the wind, though as he becomes more experienced he is taught to come down with the wind an infinitely more dangerous proceeding.' Any body can take a machine up but the difficulties are in bringing it down safely. All the accidents occur in bringing the planes back to the ground. And then it is easy to get lost. The other day one of the other men and I started to Cincinnati early in the morning. We lost our way and wound up at Indianapolis, where we got our bearings and returned to camp in time for lunch. We are making trips regularly to Springfield, Chillicothe, Columbus, Cincinnati, and other points. Nineteen planes flew to Springfield and back the other day in battle formation. We are planning new and longer routes to Indianapolis and other points and the routes will be marked by barns and houses and by lights placed at intervals for guidance at night. Five big searchlights also are to be installed here at the camp for the guidance of returning aviators. So far we have not attempted any night flying.

"Flying is a wonderful experience. When one is up above 8,000 feet one can feel his breath and heart beats getting faster and faster. It is seldom that one goes above 15,000 feet. And when one comes down he can lie down on the ground here and immediately go to sleep. The experience will be a great thing for those who survive the war."

"He did not seem to be worried and when he explained that the average life of an aviator at the front is seven hours. The statement was made by some one in the party that England has already lost 6,000 aviators.

"While we were watching the men our attention was called to a plane about two thousand feet above. The aviator was making short, spiral turns with the plane almost in a perpendicular position. 'That,' we were told, 'is Captain Peoples, one of the most famous aviators in the army. He's up in his pet, special machine, "The Black Maria," and he's demonstrating to that class of men grouped over there watching him. When he comes down he will explain to them the conditions up there, and tell them just how to do it too.'

"A young man in leather coat and helmet, after having climbed out of a plane that had just come to a stop, joined our group with the remark that the air is full of pockets this morning." He later said that without the helmet it is impossible to drive the plane without losing all of one's hair, so great is the wind. Only the top of the head shows above the edge of the car, the face being protected by a trans-

"GHOST WILL WALK" AT CAMP SHELBY

Men of Company "B" Along With
Other Guardsmen at Hattiesburg, to be Paid Tuesday

\$70,000 WILL BE REQUIRED

Hattiesburg, Miss., Sept. 8.—The "ghost" will probably "walk" Tuesday at Camp Shelby greatly to the delight of many of the enlisted men who are running short of money. This will be the first pay day at the camp and the first pay day for many of the troops here. It is estimated that \$70,000 will be required to pay the men and arrangements have been made to bring the money from New Orleans. It is estimated that future disbursements at the camp will aggregate \$1,250,000 a month.

The troops at Camp Shelby will be protected against usurers, Major William S. Bowen, camp adjutant said. Shylocks are said to have charged soldiers at another camp as high as 50 per cent a month for loans. Should troops here borrow money at usurious rates of interest they will be advised by officers to resist payment of principal and interest too.

"TUFFY" O'BRIEN IS DEAD

Expires at County Poor Farm
Where he Was Inmate 17 Years

Patrick (Tuffy) O'Brien, age seventy-eight years, died at the county poor farm last night about eight-thirty o'clock. He had been an inmate at the county home seventeen years. Mr. O'Brien came here from Newport, Kentucky where his relatives lived. He was the son of Michael and Mary O'Brien and was born in Ireland. He has no immediate relatives so far as the superintendent of the county asylum has ever been able to learn except a sister whose whereabouts are not known. The funeral will be held at the Catholic church Sunday afternoon at 1:30 o'clock and burial will take place in Cavalry cemetery. The remains may be viewed at Caldwell's undertaking parlors.

KICK ON NOTARY FEES

Indianapolis, Ind., Sept. 8.—Men called before the draft boards for examination here think it strange they have to pay the notary fee in filing exemption papers. They feel Uncle Sam should foot the bill.

Prices for administering oaths to affidavits here range from 25 cents to \$1—depending somewhat on the location of the notaries' office.

parent wind shield.

"There are two French officers who are acting as instructors here—one of whom, Lieut. V. de Man-drot, a dapper little fellow with a boyish face and a mustache passed us, looking very neat in the blue-gray uniform of the French army.

"After we had been taken through the machine shops, had inspected three knocked down machines, from which sentries finally drove us away; after we had been shown through the barracks, officers quarters, hospital and other places of interest, we were escorted hurriedly to headquarters, where we took refuge from a sudden storm of wind and rain. By the time the storm broke each of the twelve aviators that were still in the air were safely down, except one, who could not be seen for the dust and clouds.

"Some anxiety was expressed concerning him but the opinion was general that he had gone up above the clouds and was safe and serene in the sunshine and calm which the flyers say are always to be found above a storm.

"The aviation camp here is the largest in the country. It is to become a permanent plant. I am not at liberty to write any of the important information given us but it is sufficient to say that the American people are going to be hearing of the exploits of a large number of the men at this camp sooner than is generally expected. We will be reading of them in the casualty lists—reading in admiration of their daring, of which there certainly is a plenty here."

"The Home For Savings"

Which is Cheapest?

IT'S mighty fine to see the interest so many farmers around here are taking in a better grade of engines. The Mogul kerosene engines we have sold up to date have all made such good records for steadiness and economy, and have proved themselves such good money makers for their owners, that we've been getting a lot of orders and inquiries lately.

* Price may sell some things to farmers, but price alone is a poor argument when compared with the records for low cost of operation that Mogul kerosene engines are making in this neighborhood. If you are in the market for an engine, anywhere from 1 to 50-H. P. in size, and want some interesting facts about power at low cost, drop in and see us the next time you are in town.
